INTRODUCTION

Welcome to the 2026 Shield Wall Media Directory

2025 is coming to a close, so we're wrapping up the year and starting the initiatives labeled 2026. These include our Annual Directory and the CSI Survey, which should be arriving via email in the next few weeks.

Like this Directory, the CSI Annual & Market Report mails to all subscribers of all our magazines and shows. The CSI Annual presents market sentiment and data to help you have a successful year. Please take a few minutes to complete the survey. Responses are confidential—we never sell, rent, or share your information. Your participation helps us provide the information you need to succeed.

Last year, we introduced Max in this issue. He's had a busy year! The first in our series of children's books, *Max Builds a Metal Roof*, was launched at our Construction Rollforming Show earlier this month. We plan to release one book per quarter for the next three years. The next title will be *Max Builds a Pole Barn*.

We're also launching other Max initiatives. Details will be released soon on a project similar to Flat Stanley—but with Max. Take a picture of Max on a jobsite, and we'll send you a free copy of one of the *Max Builds* books. More details will be published in our magazines.

Shield Wall Media and Max have had some great adventures this year, with more to come in 2026.

Thanks for your continued support.

Gary Reichert,

This Directory is a Great Tool... Help Us Build Another: The CSI Annual!

Thank you for your participation in the Rural Builder Directory from Shield Wall media. Our mission is to assist professionals in the construction industry by providing them with relevant news, best practices, and connections. It appears that there has been a data drought in the industry for a long time, so in the last few years, we have strengthened our commitment by tapping into the various markets we work with to gather industry data and trends. Our surveys are sent to our digital subscribers and the Construction Survey Insight (CSI) article in our magazines are based on the responses we receive.

This year we will be publishing our third Construction Survey Industry Annual, sending it out to every subscriber of every one of our print magazines. We are looking for more responses year over year. The anonymous survey for the annual asks questions about how much and what kind of business companies are doing, how it compares to the prior year, and what they expect in

the year ahead. It asks about challenges the industry faces and what they see as strengths in the industry. It touches on plans for the future, as well as concerns. We invite you to delve into the CSI Annual. It is filled with tables meant to give you an industry picture as well as commentary that can be helpful as you begin to review and compare the various information conveyed by the graphs.

Please consider helping us grow this

data. If it is of interest to you, participate in the survey and share it with your customers and colleagues. The more responses we receive, the more valuable the data will be – and we share it with you for Free!

In the meantime, we hope this directory will be helpful in encouraging your relationships with others in the industry.

Linda Schmid,
CSI Editorial

THAT'S WHAT SHE SHED.

SHED DOORS ARE NO LAUGHING MATTER.

Whether it's for the wife's backyard she-shed dreams or competing with the neighbor's top-notch "he-shed", **ASTA America's** commercial sheet doors and operators will make any backyard one to envy. Available in a variety of models, sizes, and with a multitude of color options.

Let **ASTA America** make your shed or carport the talk of the neighborhood.

SUPPLIERS INDEX 2026

HOW TO USE THIS GUIDE:

The Index below is a guide to help you find companies, distributors, associations, and other organizations that provide specific products or services to the rural building industry. This Index is followed by a Company Directory, which is in alphabetical order. Many companies have included

logos and/or descriptions of their businesses to explain their offerings. Firms that won 2025 Gold Key of Excellence Awards and 2025 Metal of Honor Awards are noted on pages 72 & 73.

Companies that advertised separately in this issue can be found in our ad index on page 60.

STOP THE DRIPPING FROM CONDENSATION

Tired of Customers complaining about a dripping roof?
**Let Dripstop™ solve your condensation problems
before they start.**

Dripstop™ is applied at the
time of roll forming

- ✓ Unmatched Durability
- ✓ Prevents Bird Nesting Issues
- ✓ Easy to Clean
- ✓ Maintenance Free
- ✓ Weather Resistant

Quicker - Easier - Cheaper
than other condensation control solutions

Ask for it from your preferred roof panel supplier.

TRANSFORMING THE WAY YOU INSULATE

rFOIL reflective insulation offers superior benefits over traditional insulation by effectively reducing radiant heat transfer. Unlike bulky insulation materials like fiberglass or foam, rFOIL uses metalized foil to reflect radiant energy, keeping spaces cooler in summer and warmer in winter. It's lightweight, easy to install, and resistant to moisture, mold, and pests—making it a more durable and maintenance-free solution. Ideal for both residential and commercial applications.

Kirsch Building Products / Sharkskin® Roof Underlayments

Vendor Feature: **Viotell Metal Concepts** – Wasatch Mountains, Utah

Scope of Work: Standing Seam Metal Roofing, Wall Panels, Fascia Gutters, Chimneys

Roofing Contractor: Viotell Metal Concepts, Justin & Gio -Installers

Roof Underlayment: **Sharkskin Ultra SA®**

Gonzalo Tellez started in the roofing industry over 25 years ago, learning the trade from the ground up. From day one, he believed that roofing was more than just a project; it was about precision, integrity, and creating systems that honor the architect's design intent. That philosophy became Viotell Metal Concepts, a company known across the Wasatch Mountains for metal roofing that is as structurally sound as it is visually precise.

Viotell handles standing seam roofs, wall panels, fascia, chimneys, and custom curved systems. Much of the fabrication and installation happens on-site, ensuring every piece aligns perfectly with the architect's vision. Many projects require cranes to move materials safely, protecting the integrity of the product while maintaining flawless installation. The focus is always on delivering systems that are architecturally sound, durable, and aligned with the original design intent.

At the heart of every project are Sharkskin Roof Underlayments®. Its slip-resistant surface, high-temp stability, and watertight adhesion allow the team to install roofs safely and accurately, ensuring that every seam, panel, and gutter performs exactly as designed. Sharkskin supports Viotell's commitment to precision and provides homeowners with confidence that their roof will remain durable for decades.

Sharkskin Roof Underlayments
(877)742-7507
www.sharkskinroof.com

Sharkskin® Roof Underlayments

On an East Basin project, a full shingle roof was replaced with a standing seam metal system over Sharkskin. The result improved thermal performance, fire resistance, and long-term durability, all while staying true to the architect's vision, a perfect example of innovation and craftsmanship in action.

With installers Justin and Gio and their team on the roof, and Gonzalo guiding every detail, Viotell continues to deliver metal roofing systems with precision, integrity, and innovation, raising the standard for architecturally sound metal roofing in Utah's mountain communities.

Acu-Form designs and manufactures precision roll forming equipment using D2 tool steel dies for exceptional durability. With most components built in-house, we maintain superior quality control. Our machines are engineered for consistent performance and can be configured to operate on electric, hydraulic, or mechanical power to meet diverse production needs.

SUBSTANTIALLY STRONG ROOFING

Striking, Sophisticated Shades.

ProVia metal roofing in Coalstone Slate

Introducing Coalstone Slate and Bronzewood Shake, bold new metal roofing colors from ProVia. Coalstone is an intense charcoal gray, and Bronzewood is a deep, brindled brown – both shades offering dramatic ambience to any exterior color scheme, and the crowning touch to a stylish aesthetic. ProVia combines the strength and durability of 26-gauge steel with the contemporary curb appeal of deep, dark shades to deliver the long-lasting metal roofing your customers want.

It's the right thing to do.

Since 1997, Apple Outdoor Supply has been a wholesaler of Shed, Barn, & Play-set hardware and essentials. We use both domestic and foreign vendors to bring the best possible quality and priced products to our customers. We have a knowledgeable and dedicated sales staff; our salesman can provide product information and advice, on-site visits, and more. We are a wholesaler, but we sell to builders both large and small. We ship orders on both freight and ground; we coordinate with you to make shipping easy. We have two different locations, one in PA and one in NC. Both locations can directly service local customers, and ship to customers outside of their area.

DAYSTAR™

High Performance Natural Lighting Systems

DayStar Natural Lighting Systems

14226 Highway 4
Campbell Hill, IL 62916
866-732-9782
info@daystar1.com

DAYSTAR™ Natural Lighting Systems provide brilliant, even illumination with extended daylight hours. DayStar collects and disperses more natural light resulting in superior illumination without glare, extreme temperatures, and shadows or direct sunlight.

DayStar's insulated curb, light shaft and lens provide 40-50% better thermal value than conventional skylight designs. That means you'll lose less heat in winter, and gain less heat in summer, reducing the burden on your heating and air conditioning systems.

Stop fire at the roofline— before it spreads.

**Fire-resistant underlayment
you can spec with confidence.**

Engineered for demanding environments, Ultra HT® provides full-roof protection against extreme heat, wind-driven rain, ice, snow—and fire. Its certified fire resistance creates a critical barrier that helps prevent fire spread and penetration beneath the roofing system.

**Ultra HT®: Tested. Certified. Fire-Resistant
protection for the whole roof.**

- **UL® CLASSIFIED CLASS A**
- **ASTM E108/ICC-ES AC188 CLASS A**

*When failure isn't an option, choose the underlayment
that goes the extra mile. **Contractors trust it. Specs demand it.***

Lutz, FL 33548
813-909-4244
813-948-4742 (fax)
sales@roofhugger.com
www.roofhugger.com

Roof Hugger, founded in 1991, has provided nearly 100 million S.F. of retrofit framing systems for metal roofs of all types, throughout the U.S., Canada, Guam, the Caribbean and beyond. Roof Huggers are 10' long, high strength, structurally correct, 16-gauge, 0.060" min., G-90, 50 KSI, "Z-shape" sub-purlins, specifically notched to let the ribs of any existing metal panel pass through the

vertical leg of the "Z." This unique, highly tested retrofit system allows any new metal roof to be installed over an existing metal roof without its removal, saving time and money and allowing for wind load, snow load, and thermal upgrading of the existing building.

Roofing Elements Magazine

PO Box 255
Iola, WI 54945

SUPPLIES & SOLUTIONS

A.J. Manufacturing, Inc.

R14 Polyurethane foam-filled walk doors. 4"x4.5" fixed-pin hinges and foamed-in-place lites offer 4-way universal handing, even with the optional 2-panel embossment (shown) as well as 6-panel and crossbuck patterns.

www.ajdoor.com

Maze Nails

Maze Ring Shank Post Frame Nails are STORMGUARD® Double Hot-Dipped Galvanized for enhanced durability and corrosion resistance. They are recommended for skirtboards and other components treated with wood preservatives. They feature superior holding power and reliability and comply with the ASTM Standard Specification F1667 for Post-Frame Ring Shank Nails.

www.mazenails.com

Everlast Roofing

Everlast Roofing introduces its Board and Batten Coil, available in 26-gauge NexGen Quartz, SMP, and print finishes. With a resin formulation that enhances resistance to chalking, fading, staining, and dirt residue, metal coil for board and batten siding is a superior choice, boasting durability, resistance to moisture, and efficient watershed.

www.everlastroofing.com

MFM Building Products Corp.

Peel & Seal is a self-adhering, waterproofing membrane that is engineered for low-slope roofing and flashing applications. The membrane features an aluminum facer that can be left exposed to the elements indefinitely. Applies directly to the deck without the need for adhesives or coatings. Request a free sample at the company's website.

www.mfmbp.com

E-Impact Marketing

E-Impact Marketing's lead generation service helps builders and construction companies find new customers. The service uses custom web pages and targeted ads to connect businesses with people actively seeking their services, delivering qualified leads to the company's inbox or CRM.

www.eimpact.marketing

ASC Machine Tools

ASC's custom-designed roll-up stations allow manufacturing of residential and commercial roll-up doors, widths between 3.5 ft and 20 ft. Optional curtain assembly tables allow the easy pre-assembly of the door panels before the seaming process. Infeed/assembly tables feature an automated tensioning device to adjust tension when winding seamed panels onto the drum.

www.ascmt.com

SUPPLIES & SOLUTIONS

Metal Rollforming Systems

The Snap Lock with Notcher rollformer includes customizable major and minor rib profiles and optional notching. It features hardened steel shafts, variable speed up to 120 ft/min, and supports 24–29 gauge Grade 50/80 steel. Offers 12" or 16" coverage, rib notching, and multi-profile tooling for clean, efficient sheet processing.

www.mrsrollform.com

rFOIL™ Reflective Insulation

Introducing rFOIL™ Max-NT... The world's first reflective bubble insulation with a reinforcing woven scrim, which provides superior tear strength. Max-NT is designed to stay securely in place when stapled to wood. Max-NT also has the industry's only UV Warranty that includes LABOR if the product ever cracks, peels or delaminates.

www.rFOIL.com

Dynamic Fastener

Dynamic Fastener stocks over 140 million rivets, with 100 million pre-painted rivets in 112 different colors for our NN43 S/S rivet. That rainbow of colors makes our rivets practically invisible when installed. Your riveting tools won't gum-up since the mandrels are paintless. Conveniently packaged 250 per bag. 800-821-5448

www.dynamicfastener.com

BECK America

SCRAIL® fasteners are 8x faster than bulk screws and 2x as fast as collated screws. They can be used for many screw applications and are installed with a pneumatic nailer. The unique thread design provides 80% of a screw's holding force, plus the screw can be adjusted and removed after insertion.

www.beck-fastening.com/en

Malco Tools

The Malco TurboShear® Rotary Panel Cutter (TSPC1) high-performance drill attachment cuts ribbed metal and vinyl panels with ease. Dual opposing cutting wheels provide smooth, self-advancing action for clean, precise results. Built for pros, it handles up to 22-gauge materials — perfect for roofing and siding jobs. Durable, efficient, and essential for any job site.

www.malcotools.com

EPDM Coatings

EPDM Coatings manufactures the only liquid BUTYL Rubber in the world that never needs a primer and is a one-coat system. This solvent-based coating allows for a chemical cross-linking vs acrylics, water-based, or silicone products. 855-281-0940

www.epdmcoatings.com

SUPPLIES & SOLUTIONS

SmartBuild Systems

SmartBuild Systems, the construction industry's only complete design system for post frame structures, all-metal buildings, garages, sheds, plus roofing and reroofing (any material, including metal!) This web-based software quickly generates 3D models, material lists, pricing, proposals, and construction documents for almost any post frame structure, metal building, or roof.

www.smartbuildsystems.com

AceClamp

Color Snap® Universal Screw Down Bracket expands the versatility of our Color Snap rail system, allowing the same snap-in rail to be used on exposed fastener or any screw-down application. This universal design simplifies inventory, extending compatibility across more roof types. The bracket is also adaptable for railless PV mounting.

www.aceclamp.com

Everlast Metals

Everlast Metals offers 24 and 26 gauge steel, as well as .032 and .040 aluminum architectural flat sheet and coil stock. Standard slit coils in stock are 20" and 24". Our paint systems include a 35-year Fluoropon® 70% PVDF paint warranty and 40-year Synergy™ paint warranty.

www.everlastmetals.com

Progressive Metals

Our 13.5" wood print coil delivers the look of real wood with the durability of metal. Designed for board and batten applications, it's low-maintenance, weather-resistant, and easy to install. A clean, modern finish adds texture and depth to any exterior. Available in a range of wood-look finishes.

www.progressivemetals.com

Acu-Form

Acu-Form Trim Roll Formers are built with longevity and ease of operation in mind, while producing precise parts in a variety of profiles, including custom matches, saving you time which is money. All our forming dies are made from D2 tool steel for a longer wear life. These machines can be powered by Electric, Hydraulic or Mechanical.

www.acuformequipment.com

Driptest™

Driptest is a proven condensation control product designed to prevent water dripping from uninsulated metal roofs. Whether you're protecting equipment, goods, or livestock, Driptest holds the moisture like a sponge and slowly releases it back into the air. A durable solution for Post Frame, Steel Buildings, Self-Storage, Carports, and Open-Walled storage.

www.driptest.com

SUPPLIES & SOLUTIONS

Triangle Fastener

APS500™ is an advanced polymer sealant that produces superior adhesion on a variety of substrates while being resistant to weathering. This paintable, high-grade sealant provides class 50 movement capabilities and comes in smooth or textured finish with custom color matching.

www.trianglefastener.com

The Bradbury Co.

The Bradbury B.O.S.S.™ shear provides high production rates with close tolerance shearing. The shear can be equipped with notching or slitting — allowing the B.O.S.S.™ to be used for various applications. The intelligent drive and shear system allows the B.O.S.S.™ to be close-coupled to a new or existing roll former.

www.bradburyco.com

Four Star Welding

The Four Star Coil Upender is an economical solution to safely tip coils. Functioning only with a hydraulic cylinder and needle valve, it requires no electric or hydraulic hookup, making it very portable with a forklift or pallet jack. It has undergone extensive testing to ensure its safety and efficiency.

406-880-0323

ASCO USA, Inc.

The ASCO V2.5 is a fully electric metal folding machine that uses ASCO's e-drive technology for accurate and consistent bending. It can bend metal up to a 12 gauge thickness and up to 150 degrees. Built for easy use and efficiency, it includes helpful features that make the bending process faster and more convenient for everyday metalwork.

www.ASCO-machines.com

Formwright

The Embark Package combines a portable New Tech Machinery SSQII-B rollforming machine with an 18' Toolcrest bumper pull trailer and a variety of essential tools and accessories. It is designed to be a complete, remote jobsite forming and installation setup for the hidden fastener metal roofing and siding contractor.

260-463-4011

ProVia

ProVia metal barrel tile roofing is now approved for high velocity hurricane zones in Miami-Dade County when installed with additional fasteners. Offer your customers a roofing system with style and substance – the classic character of clay tile and the wind and weather resistance of galvanized metal.

www.provia.com

SUPPLIES & SOLUTIONS

MWI Components

Introducing Titan Board – the ultimate in durable, lightweight PVC panels for walls and ceilings. Built to withstand moisture, impact, and chemicals, it's perfect for agricultural, commercial, and residential spaces. Effortless to install and maintain, Titan Board offers lasting beauty and performance. Panels, trim, and fasteners are now available through MWI Components.

www.mwicomponents.com

Apple Outdoor Supply

Pre-Hung Vinyl Doors are made-to-order with poly foam-injected painted slabs, vinyl jambs, factory-installed seals and sweeps, and adjustable thresholds. Outswing models feature sealed adjustable thresholds to block water and stainless-steel hinges. Multiple door glass options provide style and function for any installation.

www.appleoutdoorsupply.com

Wick Buildings

Wick Buildings crafts durable, stylish post-frame structures – from barns to barndominiums – customized with Design 3D™ and Sherwin-Williams® colors. For 70+ years, our expert crews have delivered lasting value in agricultural, commercial, and residential spaces. Your vision, built to last.

www.wickbuildings.com

Palram Americas

Harness the benefits of natural daylighting with SUNSKY roofing panels, the leading corrugated product for incorporating skylight, sidelight, or complete roof solutions in metal buildings. Compared to traditional fiberglass corrugated panels, SUNSKY provides greater impact resistance, warranted protection against yellowing, excellent load ratings, and the highest resistance to wind uplift.

www.Palram.com/us

Sommer USA, Inc.

SOMMER garage door openers use direct drive technology for quiet operation and exceptional versatility. They are available with 0.75 HP, 1 HP, and 1.25 motors. Modular rail systems make them easy to ship and require minimal levels of inventory.

www.sommer.eu

FootingPad®

Enjoy support load capacities up to 9,327 lbs. per footing with innovative composite footings that match the strength and durability of concrete – at a fraction of the weight. Save time, labor, and hassle with FootingPad®, the ICC-ES-certified code-compliant solution for wood posts, laminated columns, concrete piers, and Perma-Column®. Online load tables simplify selection.

www.footingpad.com

SUPPLIES & SOLUTIONS

Stoll Metal Works

Coil Up Enders are available from Stoll Metal Works. Choose your power source; there are three options available: electric, hydraulic, or engine driven. Our Up Enders are rated for 10,000 lb. coils. The Electric model is available with an optional wireless remote.

717-387-5572

United Steel Supply™

United Steel Supply™ is proud to offer Tru-Steel HD® digitally printed steel products in a variety of woodgrain, stone, and camouflage patterns! With a photorealistic look and no pattern repeats for up to 32 feet, Tru-Steel HD® is perfect for any exterior siding, trim, or soffit application!

www.unitedsteelsupply.com

J&E Grill Mfg.

J&E aluminum slider doors are manufactured with a limited lifetime warranty to ensure years of maintenance-free use. Standard sizes are in stock and custom size orders are our specialty. Choose from over 35+ powder coat color options.

www.horsebarnsupplies.com

BETCO

Flex Space is a hybrid commercial building that merges retail storefronts with built-in storage or warehouse areas. Designed for modern business needs, it supports customer-facing operations and backend logistics. BETCO delivers custom-engineered Flex Space solutions with high-quality steel construction, fast turnaround, and scalable design for long-term performance.

www.betcoinc.com

Richland Laminated Columns

AITC-certified Glulam columns are meticulously crafted in our state-of-the-art facility to eliminate cracking, splitting, and checking. Finger-joined and staggered for maximum structural strength, Richland Glulam columns comply with codes and standards set forth by the International Building Code (IBC). Planed on all four sides to ensure straighter, stronger post frame construction.

www.richlandcolumns.com

Perma-Column® LLC

TESTED, PROVEN, AND CERTIFIED. Professional post-frame builders trust Sturdi-Wall® anchor brackets by Perma-Column®—the only ICC-ES-certified brackets on the market. Engineered, robotically welded, powder-coated, and backed by lifetime warranty, Sturdi-Wall® drill-set brackets and Sturdi-Wall® Plus wet-set brackets have a decades-long track record of proven performance. Available nationwide.

www.permacolumn.com

SUPPLIES & SOLUTIONS

Rigidply Rafters

Rigidply Rafter Glulam Posts:

- Stronger – unequaled design values
- CCA – a .60 pcf CCA treatment
- Lighter – kiln-dried after treating
- Minimizes Cracking, Splitting and Checking
- Untreated Tops, standard
- Structural Glu-Laminated Finger joints and Laminations – waterproof, permanent, below ground structural adhesive; no nails!

www.rigidply.com

Hixwood

COILS & RECOILS with the specs you want, and the quality we demand. All steel gauge measurements are pre-paint, 29- through 22-gauge coil, and recoils with your choice of full galvanization, Galvalume®, or ZAM® coatings. Hixwood's palette offers 25+ solid colors, 15 textured options, and a selection of high-definition prints.

www.hixwood.com

Coated Metals Group

CMG's Woodgrain Print Finishes combine the timeless beauty of natural wood with the strength of steel. Ideal for roofing, siding, and accent features, they deliver authentic warmth, lasting durability, and low-maintenance performance, creating a sustainable solution that enhances both modern and rustic designs.

www.cmgmetals.com

KleerTek Industries LLC

Lumina by KleerTek - Discover Lumina by KleerTek—where sleek, modern lines meet outstanding efficiency, security, and strength. Available in tilt and turn, hinged, or fixed styles, the steel-reinforced uPVC frames go up to 11' 6", and come in a variety of colors and glass options. Make Lumina your Kleer choice—style and performance, redefined.

kleertek.com

Profiilikeskus Oy

The downspout and elbow roll forming machine from Profiilikeskus produces round or square downpipes and forms elbows. Easy programming with touchscreen interface. It operates at speeds up to 147 ft/min or 500 elbows per hour and can be integrated with a robotic packaging line.

www.profiilikeskus.ca

Timber Technologies Solutions

Titan Timber Glue Lam Columns - Mechanical fasteners (nails) are not needed to secure Titan Timber Glue laminated columns. Stringent quality control and grading standards are monitored by AITC, our third-party inspector. This process gives Titan Timbers® dimensional stability that solid sawn timber and mechanically nailed columns don't have.

www.timber-technologies.com

SUPPLIES & SOLUTIONS

Liberty Seamless Machinery

SS4E PRO portable Multiprofile roll forming machine to run: roofing, siding and soffit panels. Works with PPGI, GI, aluminum and copper. Flexible width adjustment for all panels. Available with electric, lineshaft and hydraulic drive.

<https://ss4e.us/>

Sharkskin Ventilated Roof Mat

Created specifically for all pitched roofs, to provide "above sheathing ventilation" below the primary roof covering, as well as providing an air gap to reduce heat transfer and or provide a "cool roof system". And reduce thermal radiation when used in conjunction with Sharkskin Ultra Radiant®.

www.sharkskinroof.com

Grandura Distribution

Grandura introduces snow guards that raise the aesthetic value of standing seam metal roofs. In a variety of unique shapes and forty color options, these high-quality snow guards are easy to install, too. Solve snowfall problems while topping off the roof in style!

www.grandura.com

Englert Inc.

Introducing the new Board and Batten metal wall panel system from Englert. Combining our concealed fastener system with fastening leg and lock, with the sharp lines of wide recessed boards alternating with thin elevated battens, this profile is sure to complement various architectural styles in the residential and commercial industry.

www.englertinc.com

Howick Limited

Howick leads in light steel roll-forming and framing automation. Gain the competitive edge with our range of dedicated profile FRAMA™ machines to produce ready-to-assemble steel framing: walls, floors, trusses, and telescopic panels. Benefit from rapid build speeds, improved accuracy, reduced waste and exemplary support. Grow your rural construction the smart way.

www.howickltd.com

S-5!®

Featuring an innovative internal splice that eliminates the need for in-field cutting, ColorGard® 2.0 minimizes assembly time and reduces the risk of rooftop avalanches while maintaining your metal roof's sleek look. Enjoy quick installation and easy retrofit modifications, ensuring optimal performance and unmatched durability for your roof.

<https://go.s-5.com/colorgard>

SteelGrip SAMP, Inc.

Preventing Injuries and Saving Lives®

SAMP MATS:
Easy to use magnetic grip provides safer footing when working on steel roofing. Get maintenance jobs done faster and easier.

** First-time award recipients*

These companies have been selected by the readers of *Metal Roofing Magazine* as a top supplier in the industry. You, the readers, nominated who you believe has the most:

• Quality Products • Excellent Service • Dependable Delivery

More votes were cast than ever before. The top percent of vote recipients—51 in all—make up the 21st class of honorees.
Congratulations to all of the 2025 winners!

Welcome to the 2026 Shield Wall Media Directory

Shield Wall Media's magazines and shows serve more than 100,000 builders and contractors with advice and product announcements. Once a year, we print this Directory to serve our goal of bringing together those

professionals with the construction industry's leading suppliers.

Keep this supplier resource handy all year and remember to tell your vendors "I saw your company in the 2026 Shield Wall Media Directory."
