Publisher and advertisers are not liable for typographical errors that may appear in prices or descriptions in advertisements. Mailed free to rural contractors and their suppliers throughout North America. Others may subscribe: \$29.98 for 1 year, \$55.98 for 2 years, and \$79.98 for 3 years in the U.S.; \$39.98 for 1 year, \$74.98 for 2 years in Canada.

# Something New for 2019

For the past 40 years, *Rural Builder* magazine has published an annual buyers' guide. It has always included information about companies that design their products and services around the needs of rural builders.

This year, we are doing something a little different; we are also including information about specific products.

Previously, these product profiles were published in bits and pieces throughout the year, and then in our annual *Rural Builder Source Book* in August.

Now, however, the *Source Book* exclusively includes building features, showcasing the work of rural builders in the post-frame and metal-frame industries.

We moved the product profiles to this issue's buyers' guide.

The move just seems to make sense and allows the guide to be exclusively a catalog of supplies and suppliers that help meet your day-to-day needs in the construction industry. We hope you will find it useful and will keep it, as it was intended, as a guide to help you build better and stronger buildings and businesses now and into the future.

Sharon Thatcher, editor  
sharon.thatcher@fwmedia.com

## CONTENTS [OCTOBER 2018]

### PRODUCT GUIDE / 4

A list of products and the companies that supply them

### COMPANY DIRECTORY / 14

Companies that cater to the needs of rural builders with their contact information

### PRODUCT PROFILES

Adhesives, Sealants & Caulks / 39

Building Packages / 40

Coils & Coatings / 42

Doors & Door Hardware / 44

Farm & Ranch Building Supplies / 46

Fasteners (nails, screws, clips, clamps & connectors) / 48

Foundation and Truss (engineered trusses, columns and column protection) / 52

Insulation/Moisture & Vapor Barriers / 54

Roof & Wall Panels / 56

Roofing Components (gutters & snow guards) / 60

Tools & Equipment / 62

Ventilation / 66

Windows, Skylights & Daylighting / 68

# PRODUCT GUIDE

Your ultimate source for products and services in the rural construction industry.

## How to use the guide:

The Index below is a guide to help you find companies, distributors, associations and other organizations that provide specific products or services to the rural building industry. This Index is followed by an alphabetical listing. Many companies have included logos and/or descriptions of their businesses to explain their diverse offerings. Firms

that won 2018 Gold Key of Excellence Awards are marked with gold keys. Companies that advertised separately in this issue can be found in our ad index on page 58. If you'd like detailed information from these companies, this year we have provided website addresses. As an added convenience, the Buyers' Guide is available online at [www.rbbuyersguide.fwmedia.com](http://www.rbbuyersguide.fwmedia.com).

*Dura Coat Products has a coating that's ideal for every project and budget.*

## One Call. Many Solutions.

### APPLIED SCIENCE

*Clockwise from left: field-applied water-based Hydropon; premium Durapon 70 PVDF for Monumental applications and Ceranamel, a versatile family of polyesters.*

*At bottom: Residential is a growth market for coil-coated metals.*

DURA COAT PRODUCTS, INC.

RIVERSIDE, CALIFORNIA  
 (951) 341-6500

HUNTSVILLE, ALABAMA  
 (256) 350-4300

[www.duracoatproducts.com](http://www.duracoatproducts.com)

JUGGLING VARIOUS PROJECTS, MEETING ASSORTED PARAMETERS AND MANAGING DIFFERENT BUDGETS IS CHALLENGING. But selecting best solutions for each job is One-Call Simple. The choices and alternatives available from Dura Coat Products gives you multiple options for your coil-coating needs.

**Durapon** For first string performance, Durapon 70™ (PVDF) is outstanding for monumental, roofing and side panels, corrosive exposures and thick film applications. It is harder and more flexible than other premium PVDF coatings.

**XT-40S Ceranamel** Or you can go with High Durability Ceranamel™ XT40S that performs well in all outdoor environments with its ceramic/porcelain-type finish. Both coatings meet Cool Roof and Energy Star criteria and are available in various gloss finishes.

For commodity applications, Ceranamel XT-10 and -20 are ideal for garage door, rain ware, window and door frames and T-bar applications.

**hydropon.** To extend the life of older metal roofing and siding that has faded and chalked, or for a brand new look, Hydropon is a field-applied, water-based, air-dry coating that makes old roofing look new again. It is so versatile it can even be applied to wood, concrete, Hardie Board or elastomeric-coated roofing.

You can call on the Dura Coat Products, an Axalta Coating Systems Company, for its many solutions and coating specialists to help with all your coating needs. For more information about the full line of exceptional coatings, **call 951-341-6500 or 256-350-4300 or email [info@duracoatproducts.com](mailto:info@duracoatproducts.com)**. Your choice.

# Rosie Says...

You know if it's metal, **DYNAMIC FASTENER** is there. Whether your challenge is a leaky metal roof (DROP-STOP®), snow retention (DYNA-GUARD®), roof penetrations (DYNA-FLASH®), or fastening to all gauges of steel (**D•F**® screws), **DYNAMIC FASTENER** is your hassle free partner on the job site and on your project manager's desk. This includes our recently expanded line of D•F rivets!

We want to be your rivet supplier!  
What size do you need? Got it!  
What material do you need? Got it!  
What color do you need? Got it!  
What quantity do you need? Got it!  
Do you want your rivets in handy bags of 250? Got it! Our stock level is over *75 million* rivets with over a *hundred* different stocked colors for same day shipping.

**NEW** 12V Rivet Tool with **FREE** Extra Battery

**Who wants to pay **TARIFFS?!?****  
**Due to our massive inventory levels, we will not pass on any tariff on any item in any manner until at least November 1st. Rivets may require a tariff surcharge on November 1st. Our screws do not have any tariff expected now or in the future. If your fastener supplier can't say that, then call us for your fastener needs.**

**D•F Rivets are now available in the most requested color . . . *INVISIBLE***

The above photo illustrates our actual stock of JUST the size 43 all stainless rivet. We stock the 43 ALL S/S rivet in plain and these 66 different colors pictured above, in convenient bags of 250 pieces – all for the same day shipping.

www.advanced-sol.com  
GreenPost protects in-ground wood applications from the elements. Field tested, the lighter and easier-to-install GreenPost is heat sealed to the lumber and delivered ready to install. Non-toxic, environmentally friendly and termite tested, the GreenPost is a barrier around the treated wood, protecting the critical ground line area where decay occurs. The pre-applied proprietary uplift restraint system deters post withdrawal from stresses generated by wind load. GreenPost complies with today's safer building code practices, for post-frame construction, outdoor pavilions or tension posts. ICC Approved.

Call Advanced Post Solutions at 610-377-3270 or visit online at [www.advanced-sol.com](http://www.advanced-sol.com).

## Evolution of Post-Frame at Morton Buildings

### THE NEW STANDARD IN FOUNDATIONS

A strong building starts with a strong foundation. At Morton, we're committed to innovation and elevating the perception of post-frame to open up new markets and opportunities. Our latest offering, the Morton Foundation System<sup>®</sup>, comes standard on all new buildings and removes wood from the ground in our structures. By doing so, we've eliminated one of the most common concerns regarding our method of construction and ensures that we're offering the strongest foundation possible.

THE SNAPTABLE FOR STANDING SEAM METAL ROOFING BUILT FOR SPEED, QUALITY AND CONSISTENCY.

## ABOUT THE SNAPTABLE

Accommodates panels between 12" and 24" and is equipped to notch, cut and hem up to 60" offsets for hip-valley roofing cuts. The Towable SnapTable Pro provides the highest quality notching, cutting and hemming for any commercial, industrial or residential job.

## SAVE TIME, MONEY & YOUR HANDS

- ✓ Consistently Notches, Cuts and Hems your Standing Seam Panels
- ✓ Increase Speed & Efficiency on the Job
- ✓ Provides that hard-to-find skilled labor
- ✓ Saves an average of 40% labor costs
- ✓ Allows you to keep your BEST guy on the roof!

## SNAPTABLE SPECIFICATIONS

Panel Sizes: 12"-24" in width  
Notching Offset: 29" | Cutter & Hemmer Maximum: 60"  
Suggested Gauge: Maximum panel thickness is 20 gauge

## SHEARS FOR EXPOSED FASTENER PANELS HEAVY DUTY + HIP/VALLEY ROOFING SHEAR

Ideal for shearing heavy gauge exposed- fastener panels. The Heavy Duty Pivot Shear is ideal for straights and gable angles and can shear straight at 90 degrees and up to an 8/12 gable. The Hip/Valley Roofing Shear is ideal for straight cuts, gable angles and hip/valley roofing cuts and can shear straight at 90 degrees and up to a 9/12 valley.

**SWENSON SHEAR**

400 Carol Ann Ln.  
 Ossian, IN 46777  
 260-622-7190  
 sales@permacolumn.com  
 www.permacolumn.com  
 Since 2002, Perma-Column has become a leading supplier for alternative foundations in post-frame construction. Perma-Columns are precast concrete piers that fasten to any post or wood column, allowing post frame with no concrete trucks, and no treated wood in the ground. If a poured concrete foundation is preferred, the Sturdi-Wall product is the answer. These heavy-duty brackets come in wet- and drill-set variations to fit most common sizes. All products are engineered and manufactured in the USA.

 www.rigidply.com

Rigidply Rafters has improved the quality of post-frame buildings by manufacturing and distributing the original 100 percent glue-laminated post. By specifying Rigidply Posts, you guarantee the labor saving and quality advantages of true glulam posts. Not only are glulam posts lighter, straighter and stronger than solid sawn posts, but they minimize cracking and splitting. When planning your next building project, count on Rigidply Rafters to supply integrity, quality and service with your glulam posts.

## Raise Roof Performance With ThermaLift™ Insulation System

**VP**  
BUILDING SOLUTIONS  
...one relationship at a time

Varco Pruden's patented insulation system lifts SSR roof panels up to 7" above secondary structurals allowing two layers of blanket insulation for a U-factor performance as low as 0.029.

- Cost effective & easy to install
- Meets more stringent energy codes
- Hot-box tested & approved assemblies
- Ideal for new installation

For more about VP's ThermaLift™ Insulation System, visit [www.VP.com/ad/RBGK](http://www.VP.com/ad/RBGK)

builders and suppliers of primarily low-rise agricultural, small retail, municipal and residential structures. Published eight times annually, *Rural Builder* serves a horizontal market targeting all types of low-rise construction in cities of 250,000 or less population. Starwood Rafters' laminated wood products include Lam-Ply Truss, the company's most popular product. It combines plywood

with glulams and dimensional lumber for stronger trusses that can be spaced farther apart. It can be used in many applications.

#### Steel Dynamics, Inc.

4500 Co. Rd. 59  
Butler, IN 46721  
800-799-8942  
260-868-8202 (fax)  
brian.smallwood@steeldynamics.com  
www.stld.com

Steel Dynamics is a leader in the production of high-quality, low-cost, pre-painted steel for the metal construction industry. Its wide width, light-gauge, pre-painted flat-rolled steel is perfectly suited for roof, wall and fascia systems used in the construction of metal structures. Also, SDI's state-of-the-art pre-paint lines run parallel to its galvanized and Galvalume lines, reducing transportation costs and shortening the supply cycle...and that saves time, reduces inventory and increases working capital.

#### TITANIUM TOOLS

##### Stiletto Tools

13135 W. Lisbon Rd.  
Brookfield, WI 53005  
800-987-1849  
www.stiletto.com

Stiletto's Titanium Ti-Bone hammer has become the tool of choice for professional post-beam and pole-barn framers in the U.S. and Canada because the 20-, 30- and 60-penny spikes these builders use are hammer and elbow killers. Titanium offers ten times more dampening of recoil shock than steel hammers and has an indefinite service life with its replaceable steel faces.

# Rural Builder 2019 BUYERS' GUIDE

# PRODUCT PROFILES

SUPPLIES AND SOLUTIONS FOR THE RURAL BUILDER

The following pages of this year's *Rural Builder Buyers' Guide* features products that rural builders need for making good buildings great. Each listing includes product information and a snapshot of the product, plus a website address, phone number or email address where you can find additional information.

Categories are listed alphabetically in the table of contents below.

Whether you're looking for a better way to hold things together, light up an interior with natural light, add aesthetics with a custom-painted door and hardware, or keep moisture out and heat in, you'll find a solution here.

## TABLE OF CONTENTS

- 39 Adhesives, Sealants and Caulks
- 40 Building Packages
- 42 Coils and Coatings
- 44 Doors and Door Hardware
- 46 Farm and Ranch Building Supplies
- 48 Fasteners (nails, screws, clips, clamps and connectors)
- 52 Foundation and Truss Products (engineered trusses, columns and column protection)
- 54 Insulation/Moisture & Vapor Barriers
- 56 Roof & Wall Panels
- 60 Roofing Components (gutters and snow guards)
- 62 Tools and Equipment
- 66 Ventilation
- 68 Windows, Skylights and Daylighting

## Marco Industries

Marco's Weather-Tite Metal Roof Sealant stands up to the elements better than other sealant technologies. This eco-friendly polymer sealant offers a waterproof seal against water, wind, dust, dirt and other infiltrations. It adheres to almost any common building materials and comes in 30+ standard colors. Marco's Weather-Tite Metal Roof Sealant is tack-free in one hour, is paintable (excluding translucent), and is ideal for use on a wide variety of products.

[www.marcoindustries.com](http://www.marcoindustries.com)

## Triangle Fastener Corporation

APS500 Advanced Polymer Sealant is engineered to produce superior adhesion to metal, coated metals, wood, masonry, PVC and most common construction materials. It is a class 50 sealant that provides exceptional movement capabilities compared to other class 25 sealants. It is UV resistant, paintable and provides long-life performance. It is formulated to install in temperatures as low as -32 F and can be made in more than 100 colors.

[www.trianglefastener.com](http://www.trianglefastener.com)

## Novagard

Novagard offers a full range of silicone and hybrid adhesives and sealants to the construction industry. The flagship NovaFlex Silicone products are incredibly durable and UV resistant, and can be color matched to more than 70 industry-standard metal roof colors and more than 170 multi-purpose colors. The new NovaBond Hybrid construction sealant is durable, paintable, and color matched to more than 55 industry-standard door and window colors.

# Building Packages

SUPPLIES AND SOLUTIONS

## Sukup Steel Buildings

Sukup Manufacturing Co.'s pre-engineered steel buildings feature clear span construction and standing seam or screw-down roofs. The clear span design allows for flexibility in customizing interior space to meet customer needs. Purlins and girts are galvanized for long life and pre-punched to ensure proper fit and faster installation. A variety of sidewall and trim colors and options are available.

[www.sukup.com](http://www.sukup.com)

## CHIEF Buildings

CHIEF Buildings is one of the largest family-owned metal building manufacturers in the United States, operating since 1954. It prides itself on producing quality products and providing unparalleled personal attention to meeting the needs of its customers. For farm or commercial use, CHIEF Buildings promises to deliver: "Trusted. Tested. True."

[www.chiefbuildings.com](http://www.chiefbuildings.com)

## Morton Buildings

Morton Buildings' legacy in rural America spans more than a century. The company annually constructs thousands of custom farm, equestrian, suburban, residential and commercial buildings across the country. Morton has continued to evolve and is committed to advancing the post-frame industry. Its latest innovation is the Morton Foundation System. This system utilizes concrete lower columns and completely removes wood from the ground, improving on the strength and durability of the structure.

[www.mortonbuildings.com](http://www.mortonbuildings.com)

## Trachte Building Systems

Trachte Building Systems designs, manufactures, and erects a full line of durable, pre-engineered and customized steel self-storage systems, including single and multi-story, portable storage, interior partition and corridor, and boat/RV. Trachte is committed to helping owners make informed decisions with a knowledgeable sales team that offers advice every step of the way. This commitment, along with more than 115 years of manufacturing experience, has given the company a leading edge in the self-storage industry.

[www.trachte.com](http://www.trachte.com)

## Lester Building Systems

Lester Building Systems is a leading post-frame company with more than 170,000 buildings constructed since 1947. In support of its engineered building systems, Lester offers a lifetime structural warranty unmatched by others. Lester Buildings' dealers are empowered with Improv, an exclusive software that promptly designs, engineers, prices and draws buildings. Learn more online.

[www.lesterbuildings.com](http://www.lesterbuildings.com)

## Central States Manufacturing

Central Storage Works, a division of Central States Manufacturing, brings you a new level of quality, service and convenience that beats the competition. Quick quote-to-complete self-storage packages come with everything you'll need to erect mini storage, boat, RV or climate-controlled storage. Central Storage handles everything including the design, manufacturing and delivery of these complete self-storage building packages. Quality products are delivered on time at a great value.

[www.centralstatesmfg.com](http://www.centralstatesmfg.com)

## Varco Pruden Buildings

Varco Pruden Buildings, a division of BlueScope Buildings North America Inc., is an industry-leading provider of innovative steel building solutions. Through advanced engineering and a network of 1,000 authorized builders throughout North America, Varco Pruden offers framing, roof and wall systems for low-rise commercial and industrial projects. VP combines high-quality materials with virtually any exterior finish to create buildings that are energy efficient, aesthetically appealing and provide years of low-maintenance performance.

[www.vp.com](http://www.vp.com)

## Graber Post Buildings

Graber Post Buildings continues to be a phone call away for all post-frame building materials and do-it-yourself packages. GPB manufactures metal panels for any residential, commercial, industrial, agricultural or roofing application. It also produces custom trusses, metal trims, laminated poles and also features a steel coil division.

[www.graberpost.com](http://www.graberpost.com)

## Wick Buildings

Wick Buildings is a quality service leader in the post-frame industry. Founded in 1954, with more than 74,000 buildings completed, Wick designs and builds commercial storage, light manufacturing, retail, office, church, aviation, agricultural, suburban and residential buildings just to name a few. If it can be built with wood framing, Wick can make it happen for you and your customers.

[www.wickbuildings.com](http://www.wickbuildings.com)

## Walters Buildings

Walters is an accredited business with the Better Business Bureau, maintaining an A+ rating. The company manufactures many of the components in their buildings to insure consistency of quality. When other suppliers are used, it is with American-made products. Walters has its own in-house licensed engineering team to make sure your building is designed to meet all codes. It provides drawings, renderings and elevations so you can visualize your building during the design process.

# Coils & Coatings

SUPPLIES AND SOLUTIONS

## Dura Coat Products

Dura Coat Products offers two high-performance coil coatings. Durapon 70 is a PVDF formulation with exceptional durability and fade resistance that is also available with thick film primer for tougher environments. Ceranamel XT40 SMP is a polymer that is harder, yet more flexible than ordinary coatings. Both are Energy Star compliant.

[www.duracoatproducts.com](http://www.duracoatproducts.com)

## AkzoNobel

AkzoNobel manufactures high-performance coatings to meet the needs of the metal construction industry. Its products include TRINAR, a 70 percent PVDF coating, and CERAM-A-STAR 1050, the benchmark of SMP paint systems. Both products are available in Cool Chemistry formulations, which help make projects more energy efficient and sustainable. AkzoNobel coatings are widely specified for their excellent performance and durability, as well as their color and gloss retention.

[www.americas-coilcoatings.akzonobel.com](http://www.americas-coilcoatings.akzonobel.com)

## Beckers Group

For a high-performance coating designed to last 40-plus years, with excellent color and gloss retention, BeckryTech Super-Durable Polyester is an ideal solution. BeckryTech is based on a resin chemistry that is less reactive to UV light than the leading silicone modified polyester (SMP) products and resists the water 'hazing' effect commonly found in coil coated SMP products. The Super-Durable Polyester product line is used around the world for high-end projects and meets AAMA 2604 in all color families.

[www.beckers-group.com](http://www.beckers-group.com)

## EPDM Coatings

Fix leaks once with the only liquid EPDM rubber in the world. With more than a 25 year history of success, this one-coat application waterproofs immediately upon application. Its unique chemistry is what has made it so successful. As the catalyst-based product cures it cross-links to produce a chemical bond to the substrate it is adhering to. Get another 18-20 years out of your existing roof.

855-281-0940 Ext. 1

## Precoat Metals

Precoat Metals is the largest coil coater in the U.S. During its nearly 60 years, it has participated in every market development and solution that involves coil-coated metal. Independent of upstream metal sources, it has extensively coated every metal substrate from mills throughout the world. From 14 locations and 16 coil coating lines it provides colorful, surface-critical and highly durable finishes; enables optimization of logistics from customer-chosen mills to customer facilities; and services metal distributors, processors and end users.

[www.precoat.com](http://www.precoat.com)

## BRIGHTSMITH Coaters

BRIGHTSMITH Coaters is a multi-location coating company. It offers state-of-the-art, ISO Certified coil coating capabilities in Morrisville, Pennsylvania, as well as post-painting services in Trenton, New Jersey. Dedicated to providing customers with quality service and materials, the BRIGHTSMITH staff has more than 400 combined years of coil coating experience. With expertise in coil coating for the building products industry, BRIGHTSMITH specializes in two- and three-color print systems, embossed plastisol, laminating, slitting and multi-coat painting services.

[www.brightsmithcoaters.com](http://www.brightsmithcoaters.com)

## Nationwide Protective Coatings

PermaGard is a bright white, elastomeric waterproofing acrylic, insulating ceramic, Protective Energy Star roof coating. It is designed as an energy-saving, high-reflectivity roof coating that protects and extends the life of most any metal or other sloped roofing surface. It has a high-build formula that possesses waterproofing, insulating and soundproofing properties that beautifies and protects. Most any color is available. PermaGard offers a 15 year warranty and is one of more than 100 quality products manufactured by Nationwide Protective Coating Mfrs. Inc. of Sarasota, Florida.

[www.nationwidecoatings.com](http://www.nationwidecoatings.com)

## Steel Dynamics Inc.

Steel Dynamics Flat Rolled Group has a capacity of seven million tons annually. With plants in Indiana, Pennsylvania and Mississippi, SDI-FRG produces a wide array of steel products including hot rolled, cold rolled, galvanized, Galvalume, Galvanneal, Galfan and painted coils. SDI's three paint lines are the most recently commissioned in North America.

[www.steeldynamics.com](http://www.steeldynamics.com)

## Sherwin-Williams Coil Coatings

Sherwin-Williams Coil Coating, formerly Valspar, offers a full range of high-performance architectural metal coatings in PVDF, SMP and polyester formulas. Fluoron is its flagship coating, containing 70 percent PVDF resins, and offering premium protection against harmful UV rays, chalk, fade and chemical degradation. WeatherXL, the next generation enhanced silicone polyester coating, offers protection against weathering for years to come. WeatherXL Crinkle Finish coating offers a unique textured appearance. Each is extremely durable and have excellent film integrity and adhesion properties.

[www.coil.sherwin.com](http://www.coil.sherwin.com)

## PPG

PPG metal wall and roof panel coatings include Durastar polyester and Durastar Ultra-Cool silicone-modified polyester, formulated with IR-reflective pigments that save energy by deflecting solar heat away from buildings. Duraform coatings are individually optimized for specific applications such as building products, HVAC equipment, doors, appliances and lighting fixtures. Duranar 70-percent fluoropolymer coatings, including Duranar Ultra-Cool and Duranar Vari-Cool coatings, feature heavy-metal-free compositions for improved environmental performance, better SRI performance and wider color choice.

[www.ppg.com](http://www.ppg.com)

## Mill Steel Co.

Now in its 57th year of business, Mill Steel is more dedicated than ever to its history of innovation and people-first culture that has made it one of the largest flat-rolled steel service centers in North America. The company is comprised of 28 production lines across five locations: Grand Rapids, Michigan; Detroit, Michigan; Birmingham, Alabama; Jeffersonville, Indiana; and Anderson, Indiana. This allows for quick turnarounds of pre-painted or bare steel for customized color match. Mill Steel proudly offers AkzoNobel, PPG and Valspar color systems.

[www.millsteel.com](http://www.millsteel.com)

## Prassas Metal Products Inc.

PMP Steel is a 28-year old steel trading and painted coil distributor, specializing in pre-painted Galvalume, acrylic Galvalume, and galvanized coil product. PMP competitively supplies coated coil products to all major USA markets and a variety of industry applications, such as residential roofing and metal buildings. PMP Steel maintains coil distribution centers at Savannah, Georgia, and Tampa, Florida, stocking 20 colors of 29 gauge x regular poly colors, 18 industry-standard 40-year "Cool" colors (29 gauge, 26 gauge), and a full range of acrylic Galvalume coil (29 gauge-22 gauge) for immediate delivery.

[www.pmpsteel.com](http://www.pmpsteel.com)

# Doors & Door Hardware

SUPPLIES AND SOLUTIONS

## A.J. Manufacturing

A.J. Manufacturing builds high quality steel walk doors. Options include pre-painted white, clay, bronze or brown panel and frame, or fully stainless steel doors. A.J. doors are pre-hung in steel, aluminum or stainless steel frames with 4 x 4.5 inch fixed pin, or ball bearing hinges for 4-way universal swing, even with a foamed-in-place door lite or a deadbolt bore. The 1-3/4 inch doors are polyurethane foam injected for an R-12 insulating value.

[www.ajdoor.com](http://www.ajdoor.com)

## Schweiss Doors

For 38 years, Schweiss Doors has been a leading manufacturer of hydraulic one-piece doors, patented Lift Strap / Autolatch Bifold Doors and a new dynamic line of designer doors. Renowned for quality craftsmanship, these custom-made engineered doors are specially designed for many applications, without loss of headroom, including: commercial, industrial, agricultural, residential, aircraft hangars and designer doors.

[www.schweissdoors.com](http://www.schweissdoors.com)

## CannonBall:HNP

Since 1916, CannonBall has offered a complete, best-warranted line of round track products and accessories, including industry-standard keyhole track, for the post-frame and metal building industries. A wide variety of entry doors, like the cost-effective 1700-Series in steel and aluminum jambs (pictured), are manufactured with versatile design and affordable pricing for agricultural, commercial and metal building projects. Builders also rely on CannonBall for Dutch doors, sheeting and wall cladding products, cupolas, horse stalls, windows, builders' hardware and more.

[www.cnbhnp.com](http://www.cnbhnp.com)

## Safe-Way Door

Safe-Way Door is a leading manufacturer of quality residential, commercial and industrial overhead garage doors in steel, wood and aluminum. Headquartered in Warsaw, Indiana, Safe-Way Door also operates facilities in Tennessee and Missouri with distribution throughout North America and Canada. Doors are available in multiple configurations including polyurethane and polystyrene insulated, uninsulated and up to 10 colors in steel and multiple powder-coat colors in aluminum. Commercial door sizes are available in all of the panel designs. Pictured is the Regency Model 70 in the new Driftwood Grey.

[www.safewaydoor.com](http://www.safewaydoor.com)

## Western Products

With Western's extensive line of sliding door track, accessories, sliding door frames, equestrian products, foil insulation and much more, you're sure to find your product needs. Established in 1929, Western's reputation for quality, service, pricing and industry knowledge will help you build the future.

[www.westernproductsinc.com](http://www.westernproductsinc.com)

## C.H.I. Overhead Doors

C.H.I. Overhead Doors manufactures residential, commercial and rolling-steel overhead doors. Through its commitment to quality and value, the company recognizes the importance of delivering a reliable product. C.H.I. offers an impressive selection of models in a wide range of sizes so you can find a garage door to match your exact specifications.

[www.chiohd.com](http://www.chiohd.com)

## MWI Components

MWI Components is an industry-leading manufacturer of Dutch doors, bale doors and sliding doors. Powder-coated parts are offered in more than 28 colors and more than 100 options for 29-gauge inserts. Track packages are available in finish slider installation or you can choose your own components from MWI's track and hardware catalog. Add the final touch using MWI's expansive line of Arcadian doors.

[www.mwicomponents.com](http://www.mwicomponents.com)

## Plyco

If you're looking for a commercial, residential or agricultural door, Plyco has the right door for your construction projects. Contractors rely on Plyco for a comprehensive line of durable walk doors that meet today's building codes. Plyco offers pre-hung service doors individually packaged, pre-drilled for lock set, and insulated with injected polyurethane foam. Plyco walk doors are perfect for post frame, metal frame and commercial buildings.

[www.plyco.com](http://www.plyco.com)

## PowerLift Hydraulic Doors

PowerLift has built hydraulic doors continuously since 1992. It has 37 local support centers that manufacture, deliver and install every single door. PowerLift strives to make your building project and your long-term ownership experience simple and hassle free.

[www.powerliftdoors.com](http://www.powerliftdoors.com)

## Trac-Rite Door

Trac-Rite Door manufactures quality steel roll-up doors for a multitude of uses including self storage, residential, agricultural and commercial. Trac-Rite is dedicated to providing customized, worry-free, low-maintenance products delivered with uncompromising service.

[www.tracrite.com](http://www.tracrite.com)

## Erect-A-Tube Inc.

Erect-A-Tube Inc. designs, engineers and manufactures electric bifold doors, bottom rolling doors, aircraft T-hangars and clear-span hangars for the general aviation and business jet markets. Utilizing the structural qualities of HSS tubing, a bridge-truss design was developed, providing minimal deflection, smooth operation of the door system and flexibility in hangar design. With 54 years of manufacturing experience, Erect-A-Tube's single-source product line, with a fully-integrated system, results in ease of construction and years of reliable service.

[www.erect-a-tube.com](http://www.erect-a-tube.com)

## Extrutech Plastics

Extrutech All Weather Doors are corrosion proof, bright white, with a smooth flat 1-3/4" thick PVC door panel and solid PVC frame with a weather strip sealed edge. They are available as single and double doors, in standard or custom sizes, as well as replacement door panels to fit existing frames. For use in high moisture, salty, acidic areas where corrosion may be a problem, or for controlled environments such as car washes, dairies, laboratories and more.

## Graber Post Buildings

Graber Post Buildings has been building horse barns and supplying products and materials for horse barns since 1973. It has every item you'll need, from the complete building package to the smallest stall component including Dutch doors, sliding doors and other horse stall components. Also shop Graber Post for all sizes of tongue and groove lumber to construct your stalls.

[www.graberpost.com](http://www.graberpost.com)

## Plyco

Plyco offers a complete line of components for horse barns and livestock facilities. Plyco is a leading supplier of wholesale horse stall kits, horse stall grills and gates and horse stable Dutch door systems, all available in a variety of custom styles. The company has its own hardware for slide doors: Ply-Trac and Combo. Horse barns can be topped off with ridge vents and cupolas from Plyco. Durable doors for livestock buildings include the 98 Series line of walk doors, all constructed to survive the most corrosive environments.

[www.plyco.com](http://www.plyco.com)

## Lester Building Systems

Lester Building Systems engineers, manufactures and builds custom barns and storage buildings. For design ideas, visit the company website to view farm shops, equipment storage buildings and commodity storage buildings. Also on the website, you can locate a local Lester Buildings dealer or representative to get a quote or ask questions.

[www.lesterbuildings.com](http://www.lesterbuildings.com)

## Roll Former Corporation

Roll Former Corporation offers the Ag Panel Perforator for ventilation needed on your 3/4 inch x 5 rib wide ag panels. It comes complete with four sets of perf dies for 38 inches wide popular panel. It can also perforate "flat stock" so you can post-process the rest of your ventilated trim products. It's available in 26 gauge to 29 gauge ag panels or 24 gauge max flat stock.

[www.rollformercorp.com](http://www.rollformercorp.com)

## MWI Components

MWI is a leading manufacturer of equine building components, producing stall fronts, partitions and components, Dutch or bale doors and sliding doors. MWI currently offers more than 35 colors of powder-coat paint with a full-service in-house paint line. MWI also powder coats three profiles of slide door rails, painted quickly to finish a building so customers no longer need to settle for white doors or black stalls. Put your own personal touch on your equine facility using parts from MWI Components.

[www.mwicomponents.com](http://www.mwicomponents.com)

## Wick Buildings

Wick Buildings is a leader in the post-frame industry. Founded in 1954, with more than 74,000 buildings completed, Wick builds everything from equine and livestock facilities to industrial and light manufacturing facilities to bank and aviation buildings, as well as gas stations and churches.

[www.wickbuildings.com](http://www.wickbuildings.com)

## CannonBall: HNP

CannonBall offers horse stall systems in black powder-coated 14-gauge galvalume steel and anodized extruded aluminum materials. Stall grille sections, window grilles and door packages are available in a variety of section lengths, and formed to fit standardized dimensional lumber for easy installation. Track and trolley systems, feeders and a full assortment of finishing accessories also complement traditional post and free-standing construction projects.

# LELAND Specialty Fasteners

### Master Grippers® • Grippers MDP®

For the post frame building industry • MDP metal panel to wood or light steel girt or purlin

### Master Drillers®

Attach metal panel to metal girt or purlin, stitching & structural applications. Lengths to 8" available.

### Master Tappers®

Roof panel to panel - roof sheet to structural  
A - AB - B points available, type F, type 23, type 1, BP & more. Lengths to 8" available.

### Master Deckers®

ACQ compatible decking screws. Lengths to 6" available.

# Fasteners: Nails & Screws

SUPPLIES AND SOLUTIONS

## Dynamic Fastener

Dynamic Fasteners offers a variety of specialized fasteners, including the D.F. brand self-drilling screws made for stitching and sheet-to-structural applications; pole barn fasteners for attaching up to 18 gauge sheet metal to wood; and clip screws that require a low-clearance head when fastening to steel or wood. Fasteners are available in stainless steel and with the Dyna-Coat 1,000 hour salt spray premium coating.

[www.dynamicfastener.com](http://www.dynamicfastener.com)

## East Coast Fasteners

East Coast Fasteners produces durable, long-lasting fasteners for all combinations of building materials. The Ply-Lo Extreme line of fasteners from East Coast Fasteners is designed for extreme environments. With all the features of the original Ply-Lo fastener, the Ply-Lo Extreme is available in #10, #12 and #14, with a 40-year warranty. Ply-Lo Extended fastener is the fastener that built the post-frame industry. Ply-Lo Extended has a 12-year warranty. For assistance in finding the best fasteners for your task, contact a Plyco/East Coast Fasteners building components professional today.

[www.plyco.com](http://www.plyco.com)

## Maze Nails

Maze is the exclusive manufacturer of Stormguard double hot-dipped galvanized nails with a lifetime warranty against rust. In business since 1848, Maze offers a full line of specialty nails in bulk for hand driving and in collated sticks and coils for popular pneumatic nailers. Maze has been serving the post-frame industry for many years, providing painted rubber washer nails for corrugated roofing and siding. Maze post-frame nails meet the all-important ASTM F 1667 specification. In addition, Maze manufactures nails for fiber cement siding products, cedar and redwood sidings, fencing, decking and roofing. Maze nails are proudly made in the USA in Peru, Illinois.

[www.mazenails.com](http://www.mazenails.com)

## Leland Industries

"Mini-Drill Point" roofing and siding screws feature a self-drilling "mini point" to reduce installer fatigue when drilling in extended arm positions. Featuring a hi-hex head to compliment the Mini-Drill point, the fastener drills and taps high tensile steel with ease and is capable of drilling 16 gauge total thickness. Available in low profile, truss head design or hi-hex, Mini-Drills are used for attaching metal sheets to metal door frames or multiple laps of steel sheet. The product drills with no pigtails and at speeds as low as 1,000 RPM. Offered in carbon or high tensile stainless steel, it can be powder coated and warranted to match long-life panel warranties.

[www.lelandindustries.com](http://www.lelandindustries.com)

## Levi's Building Components

The Fastgrip #10 Hi-Lo Mini-Driller has all of the specs that make the Fastgrip #10 Hi-Lo the go-to fastener, but with the added Mini-Driller point. The Mini-Driller makes easy work of driving through metal panels, while the hi-lo thread provides superior pull-out strength in metal-to-wood applications. The Mini-Driller offers a faster start time, increased performance when drilling through two layers of metal, reduces trapped steel shavings, is mechanically galvanized, has hi-lo threads, and comes with an 1/2-inch galvanized EPDM bonded washer.

[www.levisbuildingcomponents.com](http://www.levisbuildingcomponents.com)

## Lakeside Construction Fasteners

Lakeside Construction Fasteners offers multiple fastener foam solutions for the metal building industry. The T17 Wood-X #10 x 1 inch to 4 inches is designed for decking substrate materials. The new ZMax high-low threads and pierce point allows the fastener to quickly penetrate the metal panel, and the head is guaranteed not to red rust for the life of the metal panel.

[www.lakeside-fasteners.com](http://www.lakeside-fasteners.com)

## SFS

SFS ConnexTite structural wood screw line is ideal for single and multi-ply truss, column header and joist applications, providing quicker installation and lower installed costs versus carriage bolts or ring shanked nails. Featuring a large flange head and aggressive thread design ensures quick, tight connections. The ribbed point cuts through the densest lumber without splitting. ConnexTite fasteners install with an impact gun and T25 or T40 bit and carry IBC 1603 approval for structural connections.

[www.sfsintecusa.com](http://www.sfsintecusa.com)

## ST Fastening Systems

ST Fastening Systems manufactures and supplies steel-frame and post-frame screws. Drill quality and corrosion resistance are showcased on the Maxx SteelBinder and WoodBinder MB with micro-bit technology. This point eliminates the slow-drill or no-drill complaint about sharp-point screws. All standard metal-to-wood screws have transitioned to this point, including the increasingly popular ZXL WoodBinder zinc-aluminum alloy head for 40-year-warranty roof systems. Solid and vented foam closures, pipe flashings, pancake- and wafer-head screws for standing seam roofs round out the product line.

[www.stfasteningsystems.com](http://www.stfasteningsystems.com)

## Triangle Fastener

Panel-Tite metal-to-wood screws includes TFC's patent-pending Burr-Buster thread that reduces burrs and provides better resistance to back-out. Choose from #9, #10, #12, and #14 diameter screws in carbon steel or stainless steel. For more than 40 years, Triangle Fastener Corporation has specialized in supplying hard-to-find fasteners, sealants, tools and accessories for construction. TFC offers job-site support, and can help you select the correct fastener for your application from any of 23 locations.

[www.trianglefastener.com](http://www.trianglefastener.com)

## Atlas Bolt & Screw Co.

AccuDRYve System Technology includes a screw gun and fastener that automatically stops driving the fastener when properly seated, for a leak-proof seal. The fastener washer is engineered to deflect with proper force to disengage the clutch and stop driving the fastener. Dual-thread design prevents metal from panel extruding up, cutting the washer, and insuring that the metal panel is flush to the substrate before seating. AccuDRYve provides the perfect seal by everybody every time.

[www.atlasfasteners.com](http://www.atlasfasteners.com)

## DB Building Fasteners

DB Building Fasteners carries a complete line of sheet-to-wood fasteners in #9 and #14 diameter up to 3 inches long and coated in DB's long-life Mag coating. DB also carries a complete line of self-drilling fasteners along with in-house closure stamping and fastener painting. DB can custom color match any color including metallics and chameleon colors.

[www.selfdrillers.com](http://www.selfdrillers.com)

## Marco Industries

Marco's MatchTech Select fasteners can stand up to the harshest elements in extreme conditions thanks to a proprietary heat cured alloy coating that is applied to the entire surface of the fastener. This offers maximum adhesion and corrosion resistance. The dip/spin/cure process provides a premium paint finish that provides great color and durability in the field. MatchTech Select is offered in metal-to-wood and metal-to-metal parts.

[www.marcoindustries.com](http://www.marcoindustries.com)

# Fasteners: Clips, Clamps, Connectors

SUPPLIES AND SOLUTIONS

## Alpine SnowGuards

ASG Clamps from Alpine SnowGuards were designed specifically for metal standing seam roofing applications, offering a rugged, easy-to-install, cost-effective solution for attaching essentially anything to a standing seam roof. Two oval-point set screws maintain the integrity of the roof without voiding the roofing manufacturer's warranty. It is available in size and configuration options to accommodate a wide range of seam profiles.

[www.alpinesnowguards.com](http://www.alpinesnowguards.com)

## Logan Stampings Inc.

Logan Stampings is a leading metal roof clip manufacturer in the United States. Logan Stampings offers a full line of high-quality clips and accessories for all standing seam profiles. With large stock readily available, Logan Stampings is able to process and ship most orders on the same day.

[www.loganstampings.com](http://www.loganstampings.com)

## MWI Components

MWI Components' Universal Ridge Clip is a 22-gauge galvanized clip that provides a large fastening area for any style ridge cap on a standing seam roof. With this clip, no fasteners penetrate the panel where they will be exposed to the weather and no fasteners need to penetrate the standing seam.

[www.mwicomponents.com](http://www.mwicomponents.com)

## S-5!

The new SolarFoot is made for exposed-fastener metal roofing with the strength, quality and time-proven integrity S-5! is known for. The SolarFoot, with four points of attachment, provides an ideal mounting platform to attach the L-Foot of a rail-mounted solar system, or other ancillaries, to the roof. The SolarFoot ensures a durable weathertight solution for the life of the solar system and the roof. Each piece contains two reservoirs of a factory-applied butyl copolymeric sealant, allowing a water-tested seal. Simply peel the release paper from the butyl sealant and fasten through the pre-drilled holes in the base of the SolarFoot.

[www.s-5.com](http://www.s-5.com)

## Sno Gem Inc.

Sno Gem's Sno Blockade Cube is an innovative seam-mounted clamp specifically designed for the Sno Blockade snow retention system. The Blockade Cube utilizes patent-pending WaveLock Technology that provides unparalleled strength via three points of attachment. Sno Cube's Silver Bullet set screws include a rounded "bullet" tip to maximize strength without compromising the paint finish or the material. The Sno Blockade Cubes are available in six different styles to fit virtually any standing seam metal roofing profile.

[www.snogem.com](http://www.snogem.com)

## SnoBlox-Snojax

The Roof Clamp RC and RCT are universal-fit standing seam clamps featuring a single-piece aluminum body with three set screws and a top bolt. Secure snow retention bars, solar panels, satellite dishes, roof walks, signs, awnings, conduit or HVAC lines. Installation is fast and simple and will last the life of the roof. Roof Clamp RC and RCT fit nearly every standing seam in the field.

[www.snoblox-snojax.com](http://www.snoblox-snojax.com)

**Scott-Systems**

Solidify your pole barn and stabilize your 3-ply, 4-ply or 6x6 column with 11-gauge steel collar Post-Rack by Scott-Systems. Create an adjustable work-bench or storage system. Award-winning patented design, two years of validation and now found on-line at Menards.com. Generate additional income for your business by contacting Scott-Systems for distributor pricing with discounts on quantity, packaging and shipping.

[www.Scott-Systems.com](http://www.Scott-Systems.com)

**Direct Metals Inc.**

DMI is a fastener manufacturer and master distributor of a wide range of building fasteners engineered for the metal roofing and post-frame building markets. DMI has a full line of post-frame fasteners, panel clips, clip fasteners, pipe flashings, ventilation and a full line of metal roofing accessories.

[www.directmetalsinc.com](http://www.directmetalsinc.com)

**LAM-PLY TRUSS**

The Truss That Will Carry The Load

- Spans up to 72 ft.
- Spacings up to 12 ft. on center, depending on the load you desire
- Bird Nesting Control
- Better Ventilation & Visibility
- No Feed Alley Post Obstruction
- Additional Ceiling Height

**Starwood Rafter Uses**

- Pole Sheds
- Free Stalls
- Pavilion Shelters
- Machinery Storage
- Riding Arenas
- Solar Barns

# Foundation & Truss Products

SUPPLIES AND SOLUTIONS

## Rigidply Rafters

Glue-laminated arches, beams, posts and timber trusses manufactured by Rigidply Rafters Inc., give beauty a completely new meaning. Rigidply also manufactures metal-plated roof and floor trusses, tongue-and-groove and V-groove decking and offers a complete line of post-frame building materials to complete your project.

[www.rigidply.com](http://www.rigidply.com)

## Levi's Building Components

Uplift Plates from Levi's Building Components are designed to help the post-frame builder save time, money and meet or exceed the post uplift requirements for concreted posts. These inexpensive plates can be field applied with just a framing hammer, eliminating the need for extra tools and time associated with rebar and other uplift technology. They're lightweight, easy to handle and easy to install. They are low cost and stronger than rebar and protect the center of the post by eliminating exposure to the elements, thereby resisting decay.

[www.levisbuildingcomponents.com](http://www.levisbuildingcomponents.com)

## Graber Post Buildings Inc.

Graber Post Buildings Inc. has been known for more than 30 years as a producer and supplier of quality building products to the post-frame industry. GPB Nail Lam column is another one of its top-quality products. This column has a #1 SPIB certified finger joint and GPB's program is inspected to ensure that its columns meet the high standards that its customers expect. GPB Nail Lam Columns will save you time and money on your next project.

[www.graberpost.com](http://www.graberpost.com)

## AG-CO

FootingsPad by AG-CO has introduced the largest composite footer ever made! This pad is 24" in diameter and is 2 1/2" thick and does the same job as hundreds of pounds of concrete. The pad can handle loads of 10,000 lbs per post, and can be used in buildings more than 100 feet wide. As with the existing 10", 12" and 16" pads, this new FootingsPad is made in the U.S. of a proprietary composite and fiberglass blend.

[www.footingspad.com](http://www.footingspad.com)

## Perma-Column

Keep your reputation out of the dirt—stop building on temporary foundations. Your customers deserve permanent solutions. Perma-Column precast concrete columns outperform traditional wood posts and easily integrate into your current building process. For poured concrete foundations, Sturdi-Wall and Sturdi-Wall Plus Brackets simplify post-frame construction. Capitalize on post-frame construction done right. Perma-Column promises to help you "Build better, build stronger, build to last."

[www.permacolumn.com](http://www.permacolumn.com)

## Planet Saver Industries

Green Post from Planet Saver Industries is an affordable, all-in-one solution for in-ground post decay, treatment retention and uplift restraint. Green Post double-layer wrap is factory heat-sealed to the lumber, and delivered ready to install with uplift restraint notches. When used with cement, this technique provides maximum anchorage characteristics, resisting post withdrawal generated by wind load. It is non-toxic, environmentally friendly and termite tested. Richland Laminated Columns LLC, is the newest distributor and manufacturer for Green Post in the Midwest.

Ph: 610-377-3270

## Starwood Rafters

Starwood Rafters' laminated wood products include Lam-Ply Truss, the company's most popular product. It combines plywood with glulams and dimensional lumber for stronger trusses that can be spaced farther apart. It can be used in many applications.

[www.starwoodrafters.com](http://www.starwoodrafters.com)

## Richland Laminated LLC

Richland Laminated is the manufacturer of Quality Laminated Columns and Perma Columns. Select from 3-ply 2x6 to 4-ply 2x8, treated bottom or all treated. Richland is the "One Stop Post Shop," also selling Sturdi Wall Brackets, Post Protectors and Concrete Post Pads. Richland is also now manufacturing and distributing Green Post from Planet Saver Industries.

Ph: 419-895-0036

## Midwest Perma-Column

Midwest Perma-Column places strong emphasis on alleviating environmental and longevity concerns with chemically treated in ground wood applications that have limited life expectancy and is prone to failure. In addition to the precast Perma-Column used mostly in the post-frame building industry, the company manufactures a precast Deck Post available in two lengths (30 and 40 inches) with three solid post sizes: 4 x 4, 6 x 6 and 6 x 6 rough sawn.

[www.midwestpermacolumn.com](http://www.midwestpermacolumn.com)

## Plasti-Sleeve Post Protection

First on the market by many years, Plasti-Sleeve literally created the foundation alternative category for post-frame construction. The clean fitting, easy-to-use, slide-on Post Protection sleeves provide the economical protection that many post-frame customers now expect. Quality black polyethylene plastic, more than 20 specialized sizes, and great pricing make Plasti-Sleeve a smart choice for post protection. Market leadership has continued with Short-Sleeve, for economical grade-level post protection, and Plasti-Skirt, an easy-to-use plastic skirt board protector.

[www.plastisleeve.com](http://www.plastisleeve.com)

## Post Protector Inc.

Everyone knows that wood in 'ground-contact' is not the optimum environment for maximum longevity performance. The easy-to-install, slide-on Post Protector and snap-on, compression-fit Skirt-Board Protector retain the speed, simplicity, affordability and strength of traditional post frame, while eliminating *all* ground-contact. Builders report that an impressive 60-70 percent of their customers opt for Post Protector products when given the option, while others prudently make the system standard so every customer benefits.

[www.postprotector.com](http://www.postprotector.com)

## Strong Way Systems

The Strong Way Column provides a true permanent foundation for post-frame buildings. The steel column structure is designed to be dry set and adjusted prior to being backfilled with concrete. It features 18" of height adjustability and built-in grade board bracket with height and center-line indicators. Strength, precision, durability, it's all here. Combined with an exclusive galvanized steel grade board, the Strong Way Foundation eliminates all wood-to-ground contact.

[www.strongwaysystems.com](http://www.strongwaysystems.com)

# Insulation/Moisture & Vapor Barriers

SUPPLIES AND SOLUTIONS

## Coverttech

rFOIL, from Coverttech, is reflective vapor barrier that increases wall insulation value by up to 20 percent and reflects 97 percent of all radiant heat waves. It's comprised of a single layer of aluminum foil laminated to a heavy-duty sheet of polyethylene for superior quality and durability. rFOIL is recommended for new construction and retrofit applications. rFOIL's thermal performance is unaffected by moisture and is easy to install.

[www.rfoil.com](http://www.rfoil.com)

## Filc USA LLC

DripStop from Filc USA helps fight condensation without insulation. DripStop traps and holds condensation as it forms until it evaporates back into the air. It arrives at the job site already installed on the steel; saving time and money by eliminating one step of the building process. In addition, DripStop provides a significant layer of protection against corrosion, particularly in animal confinement.

[www.dripstop.com](http://www.dripstop.com)

## Hitz Halter

Hitz Halter by Hershey's Metal Meister is the superior insulation for all below-ground applications. Developed through intensive research and real-life testing at the company's base in central Illinois, this termite-resistant insulation is manufactured from only the highest quality virgin materials, does not waterlog, does not compress under concrete, and therefore retains its R-value steadfastly even after many years. Hitz Halter is the answer for faster install and tremendous energy savings long-term.

[HitzHalter@HersheysMM.com](mailto:HitzHalter@HersheysMM.com)

## Kurt Building Materials

TechVENT external nailbase roof insulation panels are ideal for use under shingles and roofing. TechWALL external wall insulation panels add a layer of continuous insulation to meet new building codes. These external insulation panels are available up to 8" thick and R=45 for maximum energy savings. All Kurt panels are made with machined T & G construction for minimal heat loss. Kurt Building Materials is borne from more than 40 years of commercial make-to-order nailbase panel experience.

[www.kurtbuildingmaterials.com](http://www.kurtbuildingmaterials.com)

## Kennedy Insulation Group

Versola Reflective Insulation is produced in the USA at Kennedy's Midwest facility. Industry experts were consulted to ensure the highest levels of preventative components were used to safeguard against product degradation. The facility boasts a dedicated state-of-the-art bubble lamination machine to produce seamless rolls up to 6' in width. Versola is the company's primary product and RIMA verified.

[www.kennedyinsulationgroup.com](http://www.kennedyinsulationgroup.com)

## MFM Building Products

Peel & Seal is celebrating the product's 30th Anniversary in the market. This self-adhering waterproofing membrane is ideal for low-slope roofing and exterior flashing applications. The aluminum surface allows the product to be left exposed to the elements indefinitely. Ideal for sunrooms, out-buildings, home additions and much more. Use as a flashing membrane for all exterior penetrations. Peel & Seal comes in four color options and seven width choices. Manufactured in the USA.

[www.mfmbp.com](http://www.mfmbp.com)

## MWI Components

TempShield is a technologically-advanced insulation material ideal for new construction or retrofit installation in residential, commercial, industrial, metal buildings and post-frame buildings. It consists of one or two layers of Barrier Bubble air cellular material laminated between layers of aluminum foil to provide excellent thermal resistance. Offered is a Class A/Class 1 fire rating on white poly/foil insulation. It's available in standard widths of 48 inches and special order widths up to 120 inches.

[www.mwicomponents.com](http://www.mwicomponents.com)

## NOFP Inc.

Northwestern Ohio Foam Products manufactures high-performance insulation for the agricultural, residential, commercial and industrial construction markets. MicroFoil, Solex and Performance Star lines of reflective material are high-quality products offering outstanding features and benefits, including multiple options and R-Values for all your building needs. The Barrier Radiant Floor Under Slab Insulation provides an ideal solution for radiant-heated slab projects.

[www.nofp.com](http://www.nofp.com)

## Plyco Corporation

Ply-Foil is a multi-layer, reflective insulation for use in specialty and standard construction projects. Two outer layers reflect 97 percent of radiant heat. Each layer of foil is bonded to a layer of polyethylene for strength. Inner layers resist conductive heat flow while a center layer of polyethylene gives Ply-Foil additional strength. Perfect for new construction or retrofit.

[www.plyco.com](http://www.plyco.com)

## Plasti-Fab

Plasti-Fab EPS Product Solutions is an industry-leading manufacturer of rigid insulation solutions for commercial and residential construction. EnerGreen insulation is laminated on both sides to reduce damage to the product during handling, shipping and installation, and is ideal for exterior sheathing and under metal roofing. The company also manufactures SIP panels under the Insulspan brand name, and can make panels as large as 24' x 8'.

[www.plastifabusa.com](http://www.plastifabusa.com)

## Thermal Building Concepts

Thermal 3Ht's combination of components creates a high-performance thermal insulation (rolls, sheets and fan-fold) with air, vapor and radiant barriers. It can be used with all types of construction: agricultural, commercial, residential, basement walls and under concrete. To properly insulate any building structure, you must use an insulation that controls all three forms of heat transfer and can perform in any climate zone. Use Thermal 3Ht in your exterior building envelope and make your building "coffee cup tight."

[www.thermalbuildingconcepts.com](http://www.thermalbuildingconcepts.com)

## Thermal Design Inc.

Thermal Design's Simple Saver System is a high performance insulation and finishing system designed for roof and walls in non-residential buildings (new/retrofit). It is customized to fit each bay with a single continuous piece of flexible fabric liner and supported by a variety of strap options to help yield the designed insulation values with minimal insulation compression. Once installed, the Simple Saver System provides an instant and economical interior finish with exceptional acoustics and enhanced light reflectivity.

[www.thermaldesign.com](http://www.thermaldesign.com)

# Roof & Wall Panels

SUPPLIES AND SOLUTIONS

## A.B. Martin Roofing Supply

For 70 years, A.B. Martin has been manufacturing metal roofing and supplying building materials to hard-working builders just like you. To make your life easier, A.B. Martin stocks more than 35,000 building products that are ready at short notice to be loaded and delivered to your job site.

[www.abmartin.net](http://www.abmartin.net)

## Graber Post Buildings

Graber Post has everything for a post-frame structure or metal panels for any residential, commercial, industrial, agricultural or roofing application. Graber Post also produces custom trusses, metal trims, laminated poles and also has a steel coil division. GPB saves time and money by supplying all needed materials with just one phone call. Wholesale customers/distributors are desired.

[www.graberpost.com](http://www.graberpost.com)

## Central States Manufacturing

Central States manufactures metal buildings and components for the post-frame, light-gauge, architectural, residential and commercial markets. Offerings include both exposed and concealed fastener panel profiles, as well as trapezoidal standing seam panels in a selection of gauges, colors and warranties. Trim and purlins are also available. Complete mini, boat and RV storage packages are available through the Central Storage Works division.

[www.centralstatesmfg.com](http://www.centralstatesmfg.com)

## Advanced Roofing Products

The strength and durability of a DECRA stone-coated metal roof (distributed by Advanced Roofing Products) is combined with style and substance, all aimed at providing the optimal roof solution. DECRA panels have a unique interlocking design to withstand high winds while adding shear strength. They are backed by 60 years of excellence, a transferable Lifetime Limited Warranty, class 4 impact resistance and 120mph wind rating for peace-of-mind coverage.

[www.arpsteelshingles.com](http://www.arpsteelshingles.com)

## Isaiah Industries

Centura Shingle Is a four-way interlocking, concealed-fastened steel shingle backed by the industry's strongest non-pro-rated warranty. With beautiful paint finishes that emulate traditional shingles, shakes, and slate, Centura is 100 percent American made and guaranteed to withstand the worst Mother Nature has to offer. Manufactured by Isaiah Industries, an industry leader specializing for over 35 years, Centura offers homeowners a lifetime of beauty and protection.

[www.isaiahindustries.com](http://www.isaiahindustries.com)

## American Building Components

American Building Components (ABC) has built a strong reputation of providing an expansive variety of premium 29- and 26-gauge metal roof and wall panels and trim that customers have relied on for more than a century. Supported by a nationwide network of manufacturing facilities and distributors, the company's painted steel is backed by industry-leading warranties that assure your projects will stand the tests of time. ABC products are available to order online.

[www.shop.abcmetalroofing.com](http://www.shop.abcmetalroofing.com)

## Fabral

For more than 50 years Fabral has been providing contractors and builders with top quality building products. This year they are excited to introduce new colors, textures, and designs to its portfolio. With an expanded portfolio and dedicated customer service values, Fabral is bound to become the post-frame provider of choice.

[www.Fabral.com](http://www.Fabral.com)

## Everlast Roofing Inc.

Everlast Roofing's metal and siding products are uniquely made with a one-of-a-kind heat-forming process that prevents microscopic paint cracks. This enables the use of harder, more scratch-resistant paints. Offering a variety of gauges, colors and custom trims to suit every customer's application makes Everlast Roofing the perfect choice for the agricultural, commercial and residential markets.

[www.everlastroofing.com](http://www.everlastroofing.com)

## Extrutech Plastics

The Extrutech Plastics "stay-in-place" concrete form for poured walls is pre-cut to project specifications and snaps together with a double-spline E-locking system. The Extrutech FORM offers an easy-to-clean sanitary surface on both sides. The product creates a structural wall system that is builder- and customer-friendly for use in dairies, car washes or food facilities. Initially designed for 6-inch poured walls, it is also now available for 8-inch walls.

[www.extrutechplastics.com](http://www.extrutechplastics.com)

## First Choice Exteriors

First Choice Exteriors recently released a new 29 gauge panel that can take your post-frame building from normal to amazing. The Weather Max panel is being made through the manufacturing division of Classic Metals. Ribs every 12 inches mimics the look of a 12" standing seam roofing system. The panel has a cover of 36" so it installs the same as the standard roofing you are used to using. It is available in 20 smooth paint colors and eight textured paint colors and can transform your building.

[www.classicmetals.com](http://www.classicmetals.com)

## Metal Panels Inc.

Metal Panels Inc offers more than 16 profiles of quality metal roof and wall panels, all available in durable finishes and energy-saving cool colors. MPI panels are produced with one of the quickest turnaround times in the industry. Exposed and hidden fastener panels, custom trim, accessories and flat sheets are available from MPI locations. MPI serves a Midwest seven-state region through manufacturing centers in Oklahoma and Kansas.

[www.metalpanelsinc.com](http://www.metalpanelsinc.com)

## Ramco Supply

The RX4-Panel, a Ramco exclusive design, gives the appearance of standing seam metal roof at a similar cost to the traditional metal roof. See the website for details.

# Roof & Wall Panels

SUPPLIES AND SOLUTIONS

Rural  
Builder

## IMETCO

Legacy is a stunning metal, shingle-style wall panel system with interlocking panels and an integrated clip system. This reliable system offers an aesthetically-pleasing option for any wall panel application, particularly where unique or complicated building shapes are used. Available in a wide variety of shapes, sizes, materials and colors, Legacy can make a bold architectural statement.

[www.imetco.com](http://www.imetco.com)

## Lester Buildings

The patented metal Eclipse Roof System combines the structural integrity, efficiency and ease of installation of a through-fastened roof with the sleek appearance and leak-free performance of a standing seam roof. The 36" wide Eclipse panel installs quicker than the typical standing seam panel, requiring 1/3 to 1/2 the number of panels and fewer screws than the typical standing seam roof panel. Importantly, the 26 gauge Eclipse panel can be installed over open purlins; no roof deck is required.

[www.lesterbuildings.com](http://www.lesterbuildings.com)

## StealthBond

StealthBond is an advanced metal roofing system that uses structural adhesive technology for metal roofing installations. The patented StealthBond System is made up of three components: the StealthConnector, StealthBond Adhesive and StealthBond Metal Roofing Panels. Eliminate exposed fasteners on traditional 5V crimp and 3-foot ribbed metal roofing panels, trims and flashings with a high-strength structural adhesive-based metal roofing system. StealthBond is "The Next Generation of Installation" and is sold through an authorized installing dealer. To become an authorized dealer visit the website and click on Become A Dealer.

[www.stealthbond.com](http://www.stealthbond.com)

## McElroy Metal

Designed for post-frame and residential applications, the Mesa panel is a patent- and copyright-protected panel with a nearly invisible lap. The Mesa panel is sure to add beauty to any project, measuring 36 inches wide with ribs 3/4-inch high. McElroy Metal, a leading supplier of metal wall and roofing products to the post-frame industry, is a participating supporter of the National Frame Building Association. McElroy Metal is a 35-time winner of the *Rural Builder* Gold Key of Excellence, as selected by readers.

[www.mcelroymetal.com](http://www.mcelroymetal.com)

## Universal Composite Panel Systems

Designed by industry professionals with more than 50 years of commercial sheet metal and roofing experience, the Universal Composite Panel System (UCPS) 1000 Series raises the bar in ACM panel attachment. The UCPS 1000 Series incorporates several unique design features not yet seen in the industry including a hybrid design, tubular construction, and a concealed drainage system.

# Roofing Components / Gutters & Snow

SUPPLIES AND SOLUTIONS

## Midwest Enterprises

The E-Z-Hydroclean Gutter Guards, solid gutter protection system from Midwest Enterprises, uses patented multiple-front radius curves for the lowest profile. It snaps into the gutter with an exclusive positive lock system that uses no fasteners and doesn't disturb the shingles. E-Z Hydroclean allows water to track around the front curve by surface tension, and into the gutter through slots. Options: pre-cut miters for inside and outside corners, plus pre-made end caps.

[www.e-zgutter.com](http://www.e-zgutter.com)

## S-5!

S-5!'s DualGard's two 1-inch pipes keep snow and ice in place, letting it melt safely away. Mounted with S-5! mini clamps, this versatile system comes with two sizes of snow clips to fit every roof type and seam profile. Designed to preserve roof styling, DualGard can be painted, powder-coated or anodized to match virtually any metal roofing system. ColorGard's unsurpassed holding strength and perfect color-match lasts the life of the roof. S-5! offers a limited lifetime warranty on ColorGard systems and will provide Professional Engineer Stamping on any X-Gard, DualGard, and ColorGard project.

[www.s-5.com](http://www.s-5.com)

## Levi's

Levi's Snow Defender 4500 answers your snow retention needs with high quality and good looks. Made of 16-gauge 304 stainless steel, it is designed for performance and long life. Using the highest quality powder coating process, the 4500 is available in more than 40 colors, matching most metal roofing manufacturer's colors. Backed by the product-specific Snow Defender Calculator, to ensure proper placement for best performance, the 4500 is your best choice for snow retention.

[www.levisbuildingcomponents.com](http://www.levisbuildingcomponents.com)

## AceClamp

AceClamp's new VAB is the first Variable Angled Bracket of its kind, making it possible to install snow retention on an inclined surface—without the need to add additional snow guard protection above it. Traditional metal roof snow guards can only be installed 90 degrees to the seam. The VAB solution allows for installation of snow retention bars within a variable range, making it possible to match up with more exotic architectural angles.

[www.aceclamp.com](http://www.aceclamp.com)

## SnoBlox-Snojax

SnoBlox-Snojax pioneered the use of polycarbonate in the snow guard industry in 1976 and continues to innovate and develop new products each year. SnoBlox-Snojax carries a complete line of polycarbonate and 304 stainless steel snow guards and SnowBreakers. Every product is professionally tested, American made and ready to ship. SnoBlox-Snojax also offers the premier rail type snow retention system with its SnoBar and ColorBar products. SnoBlox-Snojax can custom design snow guard systems for glue down, screw down or non-penetrating clamp-on attachment and offer free lifetime warranties for properly designed and installed projects.

[www.snoblox-snojax.com](http://www.snoblox-snojax.com)

## Raytec Manufacturing

HangTite and HangFast hidden gutter hangers, manufactured by Raytec Manufacturing, are exceptionally strong. Both have proven records of performance, strength and ease of use in the field. Raytec engineers designed the Hangtite to be strong. Hangfast hangers, with the integrated screw, add speed to the installation without compromising performance. Both hangers are available in 5" and 6", in aluminum, galvanized and copper.

[www.raytecllc.com](http://www.raytecllc.com)

## ST Fastening Systems

ST Fastening Systems offers Snow Trax snow retention guards for exposed fastener roofs and the MRC Snow Trax roof clamp for standing seam roofs. The Snow Trax is 16 gauge 304 stainless steel available in more than 20 powder coated colors. Its adhered rubber gasket eliminates the need for additional sealant. The MRC is extruded aluminum, and a colored rail slides through the clamp grooves to provide maximum protection from snow and ice.

[www.stfasteningsystems.com](http://www.stfasteningsystems.com)

## Dynamic Fastener

Dynamic Fastener's Dyna-Guard snow retention system is designed to be used on metal roofs. Dyna-Guard is an 8' long extruded aluminum stick with a T-shape profile. Dyna-Guard is installed by attaching clamps or brackets to a metal roof and bolting the system to the clamps or brackets. Seven Dyna-Clamps with round-point set screws and two models of Sno-Dams are offered. Sno-Dams attach to the back of Dyna-Guard and inhibit snow and ice from sliding under it. A 2" wide painted strip of metal from the same material as the roof is inserted in the Dyna-Guard for aesthetics.

[www.dynamicfastener.com](http://www.dynamicfastener.com)

## Snobar

The first patented bar system in the industry, Snobar is always one step ahead of the competition by continuing to come out with new and improved products to keep snow and ice from avalanching off of roofs. Snobar offers systems for shingle roofs, exposed fastened roofs and standing seam roofs. Why mess with a two-piece clamp when you can use a one-piece clamp that works on bulb and "T" shaped seams. Snobar systems can be painted to match the roof. New to the Snobar line is a patented two-bar system.

# Tools & Equipment

SUPPLIES AND SOLUTIONS

## The Bradbury Company

The Bradbury Co. Inc. manufactures a wide range of equipment for the metal building, roofing, and post-frame industries including in-plant and portable roll formers, integrated felt wicking applicators, trim folders, CTL/slitter lines, fully automated trim lines, and related coil-processing equipment. All Bradbury machines are engineered for easy operation and durability.

[www.bradburygroup.com](http://www.bradburygroup.com)

## Dynamic Fastener

Dynamic Fastener offers a variety of professional tools by DeWalt, Milwaukee, Bosch, Hitachi, Fein, Trumf, Olympic, Makita, Metabo, Skilsaw and Kett Power Tools, as well as Klein, Proto and Crescent Tools, bolt bags and leather goods. Also offered are DBI Sala, Preferred Safety and Guardian fall protection; plus hard hats, safety glasses and hearing protection. Same-day shipping is available for screws, anchors, flashings, safety equipment, hand tools and power tools. A free 132 page, full color, tool and fastener handguide provides engineering data, and details product offering.

[www.dynamicfastener.com](http://www.dynamicfastener.com)

## ASC Machine Tools, Inc.

The new ASC Alpha Series is a revolutionary panel roll-forming line designed with a perfect balance of superior quality, performance and affordability. The line features a close-coupled pre-cut front end and a roll former with heavy-duty cast stands and cast bearing blocks manufactured inhouse. The Alpha Series is available as a post-cut line featuring rugged hydraulic post-cut shear with profiled shear blades.

[www.ascmt.com](http://www.ascmt.com)

## AppliCad USA

AppliCad has developed software for simplified roof modelling in 3D that results in comprehensive cladding material and labor take-off, client proposals and job planning. The software creates complete material lists, cutting lists, workshop details, supplier orders and labor summary at the click of a mouse button. With 25+ years experience and software in 148 countries, AppliCad knows how to do estimates for metal roofing and wall cladding, including all associated trim and accessory items.

[www.appliacad.com](http://www.appliacad.com)

## The Brut Post Grabber

Never manhandle heavy posts again. The Brut Post Grabber skid steer attachment makes easy work of post placement. This innovative attachment was designed and developed by a post-frame building contractor. The Brut solves problems of safety, physical strain and hole sloughing. And, it's made in the USA.

[www.thebrutpostgrabber.com](http://www.thebrutpostgrabber.com)

## Spin Screed Inc.

Lightweight and economical, the Spin Screed was designed by a contractor with more than 30 years of concrete experience. Field tested with quality components, the Spin Screed will begin making money for your construction business as soon as you get it in service.

[www.spinscreed.com](http://www.spinscreed.com)

## Roll Former Corporation

Roll Former Corporation has been in business since 1978. For 40 years It has designed and manufactured machinery for the metal roofing and construction industries. Today it offers more than 25 standard product pieces of equipment. For the last 28 years it has been producing "custom profile" machines. Call, fax or email the machinery profile that you need to expand your business. Made in the USA.

[www.rollformercorp.com](http://www.rollformercorp.com)

## Hershey's Metal Meister LLC

A unique hybrid of European design and USA manufacturing, the Hershey's patented Variobend machine provides an innovative double-bending capability with amazing speed and accuracy. Now the leading manufacturer in its field, Variobend offers user-friendly software with its cutting edge ability for unusual profiles and greatly-reduced material handling. Hershey's also produces the Hitz Halter radiant floor insulation for all below-grade applications.

[info@HersheysMM.com](mailto:info@HersheysMM.com)

## Metal Rollforming Systems

Metal Rollforming Systems designs and manufactures industry-leading roll forming equipment and accessories. MRS' product lines consist of single- and double-deck roll formers, single- and multi-trim roll formers, slitters and more. MRS takes great pride in customer support both before and after the sale.

[www.mrsrollform.com](http://www.mrsrollform.com)

## Paint Valley Parts / Acu-Form

Acu-Form (a division of Paint Valley Parts) is a manufacturer of metal-forming equipment, such as the Ag Panel, Post Cut Shear, Uncoiler, Corner, J-Channel, Ridge Cap, Rat Guard, Hemmer, Slitter, Wrapper, etc.; also machines made to your specs. Acu-Form's goal is to meet and exceed customer expectations. Its No. 1 priority is to send its customers a durable top-performing machine that will provide years of trouble-free service.

[acu-form@safecommail.com](mailto:acu-form@safecommail.com)

## Marion Manufacturing

Marion Manufacturing adds the value to the metal by designing, fabricating and installing custom manufacturing and production machinery. Marion specializes in metal-forming equipment such as roll formers, uncoilers, shears, stackers, etc. Marion Manufacturing also offers a full-service machine shop and re-tooling and service on other brands of equipment.

[www.marionmanufacturing.com](http://www.marionmanufacturing.com)

## D.I. Roof Seamers

D.I. Roof Seamers is the world's largest dedicated manufacturer of quality roof seamers, offering fast and lightweight machines guaranteed to work with any metal roof panel on your job site. D.I. also distributes and provide parts support for a vast variety of seamer models and peripheral equipment to metal roofing manufactures and contractors in the U.S. and internationally. It also offers multiple rental options, and a full line of hand crimpers, hand tools, roof removal tools and other accessories.

[www.diroofseamers.com](http://www.diroofseamers.com)

# Tools & Equipment

SUPPLIES AND SOLUTIONS

**Rural  
Builder**

## Stiletto Tools

Stiletto's TB15MC framing hammer is a 15-ounce titanium framer with replaceable steel faces, and a 180-degree side nail puller. The one-piece claws, side-puller and handle design hits like a 28 ounce all-steel hammer, but with 10 times greater damping of recoil vibration, and with 45 percent less weight. Replaceable steel faces extend the service life of the tool. The 180 Side Nail Puller pulls the most stubborn nails easily, with much less strain on you.

[www.stiletto.com](http://www.stiletto.com)

## Swenson Shear

The Towable SnapTable Pro—manufactured by Swenson Shear—is the all-in-one panel preparation system for standing seam metal roofing. It accommodates panels between 12 inches and 24 inches and is equipped to notch, cut, and hem up to 60 inch offsets for hip and valley roofing cuts. The Towable SnapTable Pro provides the highest quality notching, cutting and hemming for any commercial, industrial or residential job.

[www.swensonshear.com](http://www.swensonshear.com)

## Malco Tools

TurboShear drill attachments now feature a redesigned clamp that allows the working head to rotate 360 degrees. The new clamp is found on a variety of metal-cutting models including a 24-gauge left- and straight-cut design for corrugated metal roofing panels (TSCM); a heavy-duty 18-gauge left- and straight-cut (TSHD) and the new 18-gauge double-cut (pictured) that can cleanly trim standing seam roofing panels. The compact blades of the TSMD can navigate up to 90 degrees outside profiles and cut through seams.

To some, sunglasses are a fashion accessory...

# But When Driving, These Sunglasses May Save Your Life!

**Drivers' Alert:** Driving in fall and winter can expose you to the most dangerous glare... do you know how to protect yourself?

In the fall and winter, the sun is lower in the sky so it rises and sets at peak travel periods. During the early morning and afternoon rush hours many drivers find themselves temporarily blinded while driving directly into the glare of the sun. Deadly accidents are regularly caused by such blinding glare with danger arising from reflected light off another vehicle or snowy and icy pavement. Yet, motorists struggle on despite being blinded by the sun's glare that can cause countless accidents every year.

**Not all sunglasses are created equal.** Protecting your eyes is serious business. With all the fancy fashion frames out there it can be easy to overlook what really matters—the lenses. So we did our research and looked to the very best in optic innovation and technology.

**Sometimes it does take a rocket scientist. A NASA rocket scientist.**

Some ordinary sunglasses can obscure your vision by exposing your eyes to harmful UV rays, blue light, and reflective glare. They can also darken useful vision-enhancing light. But now, independent research conducted by scientists from NASA's Jet Propulsion Laboratory has brought forth ground-breaking technology to help protect human eyesight from the harmful effects

Eagle Eyes® Lens

Slip on a pair of Eagle Eyes® and everything instantly appears more vivid and sharp. You'll immediately notice that your eyes are more comfortable and relaxed and you'll feel no need to squint. These scientifically designed sunglasses are not just fashion accessories for the summer; they are necessary to protect your eyes from those harmful rays produced by the sun in the winter.

of solar radiation light. This superior lens technology was first discovered when NASA scientists looked to nature for a means to superior eye protection—specifically, by studying the eyes of eagles, known for their extreme visual acuity. This discovery resulted in what is now known as Eagle Eyes®.

**The Only Sunglass Technology Certified by the Space Foundation for UV and Blue-Light Eye Protection.** Eagle Eyes® features the most advanced eye protection technology ever created. The TriLenium® Lens Technology offers triple-filter polarization to block 99.9% UVA and UVB—plus the added benefit of blue-light eye protection. Eagle Eyes® is the only optic technology that has earned official recognition from the Space Certification Program for this remarkable technology. Now, that's proven science-based protection.

**The finest optics: And buy one, get one FREE!** Eagle Eyes® has the highest customer satisfaction of any item in our 20 year history. We are so excited for you to try the Eagle Eyes® breakthrough technology that we will give you a **second pair of Eagle Eyes® Navigator™ Sunglasses FREE—a \$59.95 value!**

That's two pairs to protect your eyes with the best technology available for less than the price of one pair of traditional sunglasses. You get a pair of Navigators with stainless steel black frames and the other with stainless steel gold, plus one hard zipper case and one micro-fiber drawstring cleaning pouch are included. Keep one pair in your pocket and one in your car.

**Your satisfaction is 100% guaranteed.** If you are not astounded with the Eagle Eyes® technology, enjoying clearer, sharper and more glare-free vision, simply return one pair within 30 days for a full refund of the purchase price. The other pair is yours to keep. No one else has such confidence in their optic technology. Don't leave your eyes in the hands of fashion designers, entrust them to the best scientific minds

Studies by the National Highway Traffic Safety Administration (NHTSA) show that most (74%) of the crashes occurred on clear, sunny days

Navigator™ Black Stainless Steel Sunglasses

Receive the Navigator™ Gold Sunglasses (a \$59.95 value) **FREE!** just for trying the Navigator™ Black

# Ventilation

SUPPLIES AND SOLUTIONS

## Plyco Corporation

Plyco manufactures and distributes a variety of ventilation products designed to meet most airflow requirements. The MWE-100 is a low profile unit, 10 feet in length with 12 square inches of free air space per lineal foot. The MW100-25 has a higher profile than the MWE and is open at the top. The ventilator has an internal diverter to direct rain off to the side and out onto the roof. The MW100-35 has the same design as the 25 series with increased free air space of 36 square inches per lineal foot. The FMW100-35 is of the same design as the 35 series but the diverter is made from translucent fiberglass to allow light into the building ridge while keeping the rain out.

[www.plyco.com](http://www.plyco.com)

## Levi's Building Components

Levi's Building Components offers simple solutions to prevent weather element damage for varying roof profiles with FastVent Plus and FloVent—two contractor-friendly metal roofing ridge vent closure systems. Both are easy to install with a pre-applied adhesive strip and are fire retardant and UV stable. Each fit many profiles: FloVent can be installed on the ridge cap and FastVent Plus on the eave.

[www.levisbuildingcomponents.com](http://www.levisbuildingcomponents.com)

## MWI Components

MWI is an industry-leading manufacturer of light-gauge steel cupolas using pre-painted 29 gauge construction. Cupolas are available in more than 100 standard colors plus Kynar. All metal edges are hemmed. No need to worry about red-rust. Roof and sides interlock for weather-tite connection. Sizes 24-, 36- and 48-inch ship knocked-down; 66 and octagon ship assembled.

[www.mwicomponents.com](http://www.mwicomponents.com)

## Marco Industries

As North America's leading ventilation manufacturer Marco Industries offers superior roof ventilation your way, with products tailored to fit your specific performance requirements and budget. Ventilation products feature an exclusive nonwoven polyester material that delivers extreme durability and breathe to help prevent moisture absorption. All offer a 40 year limited warranty, easy one-person installations, and two full beads of M63, Marco's proprietary adhesive for superior hold.

[www.marcoindustries.com](http://www.marcoindustries.com)

## Direct Metals Inc.

Direct Metals Inc., offers choices in ventilation systems for metal roofing panels and post-frame buildings. Universal foam products such as Razorback RidgeVent complement profiled product offerings such as ProfileVent.

[www.directmetalsinc.com](http://www.directmetalsinc.com)

## Isaiah Industries

Isaiah Industries has added Vent 3 as a breathable solution to its RoofAquaGuard family of underlayments. With a permeability of 81, Vent 3 far surpasses many other breathable underlayments on the market, in fact more than five times higher than a popular alternative. Installers will love the 800 square foot rolls weighing only 23 pounds. Vent 3 can dramatically increase the health of any structure by allowing moisture to escape rather than saturating the insulation and roof decking.

[www.roofaquaguard.com](http://www.roofaquaguard.com)

## ProfileVent

ProfileVent is a single-layer ridge vent on a roll. It's a strong, durable modified polyester, non-woven, non-wicking fiber-based matting, designed specifically for metal roofs. ProfileVent is specifically cut to fit more than 50 standing seam and metal screw-down roofing panels, more than any other ventilation system manufacturer. After 20 years and more than 1,000,000 installations, the company is still waiting for its first callback. ProfileVent is Class A Fire Rated. It will not burn.

[www.profilevent.com](http://www.profilevent.com)

## CannonBall:HNP

### PROFILE CUT VENTING MATERIAL

CannonBall is offering FlexPro venting material, with protection that lasts like no other. Offering 40 years of warranted weather-tite performance, this recycled-material polyester prevents moisture absorption and holds together longer than standard polyurethane venting products. Available in 20-foot rolls to ride with CannonBall product shipments, FlexPro provides the durability and element resistance to meet building codes, reduce damage and save on costs.

[www.cnbhnp.com](http://www.cnbhnp.com)

## ST Fastening Systems

ST Fastening Systems supplies its MultiVent and MultiVent10 closures for those applications requiring airflow on metal roofs. Open cell foam MultiVent, 3 feet in length, and woven polyester MultiVent10, 10 feet in length, allows as much as 98 percent free airflow through the material. However, it prevents wind-driven rain from penetrating the material when compressed. The designs are universal for both, with adhesive applied for easy field installation. MultiVent can be used on angled roof applications and MultiVent10 for ridge cap applications.

[www.stfasteningsystems.com](http://www.stfasteningsystems.com)

## Roof Saver

Roof Saver meets or exceeds the attic ventilation requirements of all nationally recognized building codes, holds a Class A Fire Rating, ICC ES ESR-1218 evaluation report, Miami-Dade County NOA # 16-0607.09 and provides uniform ventilation to relieve excess heat and moisture from the attic. It's available in four widths with hand nails or coil nails. Roof Saver Rolled Ridge Vent offers a 40-year warranty.

[www.roofsaver.com](http://www.roofsaver.com)

## Snap-Z Ridge Vents

Glick Metals LLC manufactures Snap-Z Roof Vents. These are high-quality vents designed to work with standing seam roof applications for easy installation and adequate airflow.

[www.standingseamroofvent.com](http://www.standingseamroofvent.com)

## SnoBlox-Snojax

Ventsavers from SnoBlox-Snojax can be used on exposed fastener and standing seam roof panels. They protect vent pipes and chimneystacks from sliding snow and ice damage. The innovative fin-design cuts through packed ice and snow, causing the snow slide to divert around the pipe and to assist in shedding the snow and ice from your roof. Installation is quick and easy. Ventsaver is made from quality non-corrosive powder-coated aluminum, stainless steel and aircraft cable. Ventsaver is available in three sizes to fit projects from 1 to 14 inches in diameter.

# Windows • Skylights • Daylighting

SUPPLIES AND SOLUTIONS

## MWI Components

MWI Components is now offering a simple and strategic line of vinyl windows for the post-frame industry. It includes single hung and horizontal sliders with ½-inch insulated glass, removable insect screens, durable, completely-welded construction, UV-stable white vinyl, cast/zinc painted window locks, continuous spacer primary seal, interior weeping system and deluxe wool-pile seals. The single-hung comes with or without grids; the horizontal slider offers the option of with or without a built-in J-channel.

[www.mwicomponents.com](http://www.mwicomponents.com)

## Plyco Corporation

The CTB (Commercial Thermal Break Window) is Plyco's top-of-the-line commercial quality window. It is constructed of 100 percent thermalized aluminum extrusions with ¾-inch thermo pane glazing. AATL (All Aluminum Trimline) windows, an aluminum frame window, is specifically designed for the metal-clad building industry. Series 100 energy efficient window is made of "Fibrex," a revolutionary composite material with strength, aesthetic appeal and energy efficiency (Energy Star). The Series 100 window can be painted and holds its form without warping or twisting.

[www.plyco.com](http://www.plyco.com)

## Palram Americas

Palram continues to expand its SUNSKY Polycarbonate Panel line, allowing builders to offer more day lighting and side lighting options to their customers. With Palram's proprietary MetalMatch Technology, Palram can match virtually any corrugated metal panel profile available, with minimal order requirements. Palram also offers a complete line of AG-TUF and DURACLAD PVC liner panels for interior use.

[www.palramamericas.com](http://www.palramamericas.com)

## Amerilux International

Translucent wall panels or a ridge skylight are effective ways to increase the natural lighting in your building. LEXAN Softlite multiwall polycarbonate is a 100 percent light-diffusing panel, letting in natural light while reducing hot spots. The panel's anti-drip coating eliminates bothersome dripping, and for animal housing helps to keep bedding dry. Because the UV-protected outer surface helps maintain the superior toughness of the material, these panels will last for years!

[www.ameriluxinternational.com](http://www.ameriluxinternational.com)

## DayStar Systems LLC

Utilizing unique technology, DayStar's completely-natural lighting system for commercial applications directs light through an ultra-reflective shaft, amplifying and dispersing it evenly, without glare and hot spots. This extends the amount of hours electric lights can be turned off, up to 9-1/2 hours per day. The super-insulated light shaft requires no attic support walls and is available in custom lengths. The complete system includes dome, light shaft, insulated steel or aluminum roof curb to match your roof pitch and rib design, ceiling lens and powder-coated color.

866-7DAYSTAR

## Bay Insulation Systems

BayLight Prismatic Skylights offer the highest lighting performance of standard domed skylights. They produce daylighting that can replace electric lighting for 70-80 percent of the daylight hours, resulting in lower utility bills and a cleaner environment at just a fraction of the cost of the solar photovoltaic panels. By allowing natural lighting in and providing 100 percent glare-free diffusion, BayLight can also improve employee morale and product quality, reduce absenteeism and errors and increase productivity.

[www.bayinsulation.com](http://www.bayinsulation.com)

## CannonBall:HNP

CannonBall offers a variety of window applications for agriculture, commercial and metal building markets. The thermally-broken 2200-Series aluminum windows hold off winter's cold and are available in slider, hung, fixed and architectural shapes. Value models can be found in the 1200-Series welded vinyl construction and wide assortment of horizontal sliding, single hung, 3-lite slider, fixed and architectural shape configurations. Specialty glass is available in both series upon request.

[www.cnbhnp.com](http://www.cnbhnp.com)

## A.J. Manufacturing

A.J. Manufacturing offers a complete line of durable high-quality aluminum, Harmony vinyl and Main Street vinyl windows. Options include standard and custom colors, horizontal sliding, fixed lite, casement, single hung, double hung, architectural shapes, grids and Low-E glass. White, brown, bronze, champagne, clay or custom-colored windows and trim will enhance the appearance of your next building.

[www.ajdoor.com](http://www.ajdoor.com)

## Direct Metals Inc.

DMI distributors have the flexibility to offer many choices in daylighting options including profiled and flat monolithic translucent panels. Profiled panels are available in different strength

ratings and thicknesses: 1.0mm, 1.5mm and 2.0mm. Custom panel profile-matching technology is available to your customers where DMI can create a custom translucent panel using your CAD drawing (minimum orders apply). All panels are co-extruded with UV protection and offer a 10-year warranty against loss of light transmission due to yellowing and against damage due to hail.

[www.directmetalsinc.com](http://www.directmetalsinc.com)

## Resolite

Since 1951, Resolite FRP Composites has been in the forefront of new product development in fiberglass reinforced plastic panels. Resolite designed the first fire-retardant fiberglass reinforced plastic sheet and introduced the first walkable FRP panel. Resolite is now offering a new line of Macrolux polycarbonate corrugated and multi-wall panels. The corrugated panels were specifically designed to use on metal buildings as skylights and sidelights. These polycarbonate corrugated sheets match most of the metal panel profiles in the U.S. market.

The NEW Gold Standard of Walk-In Bathtubs 

# Leading Acid Reflux Pill Becomes an Anti-Aging Phenomenon

*Clinical studies show breakthrough acid reflux treatment also helps maintain vital health and helps protect users from the serious conditions that accompany aging such as fatigue and poor cardiovascular health*

by David Waxman  
Seattle Washington:

A clinical study on a leading acid reflux pill shows that its key ingredient relieves digestive symptoms while suppressing the inflammation that contributes to premature aging in men and women.

And, if consumer sales are any indication of a product's effectiveness, this 'acid reflux pill turned anti-aging phenomenon' is nothing short of a miracle.

Sold under the brand name AloeCure, it was already backed by clinical data documenting its ability to provide all day and night relief from heartburn, acid reflux, constipation, irritable bowel, gas, bloating, and more.

But soon doctors started reporting some incredible results...

"With AloeCure, my patients started reporting less joint pain, more energy, better sleep, stronger immune systems... even less stress and better skin, hair, and nails" explains Dr. Liza Leal; a leading integrative health specialist and company spokesperson.

AloeCure contains an active ingredient that helps improve digestion by acting as a natural acid-buffer that improves the pH balance of your stomach.

Scientists now believe that this acid imbalance is what contributes to painful inflammation throughout the rest of the body.

The daily allowance of AloeCure has shown to calm this inflammation which is why AloeCure is so effective.

Relieving other stressful symptoms related to GI health like pain, bloating, fatigue, cramping, constipation, diarrhea, heartburn, and nausea.

Now, backed with new clinical studies, AloeCure is being recommended by doctors everywhere to help improve digestion, calm painful inflammation, soothe joint pain, and even reduce the appearance of wrinkles – helping patients to look and feel decades younger.

## FIX YOUR GUT & FIGHT INFLAMMATION

Since hitting the market, sales for AloeCure have taken off and there are some very good reasons why.

To start, the clinical studies have been impressive. Participants taking the active ingredient in AloeCure saw a stunning 100% improvement in digestive symptoms, which includes fast and lasting relief from reflux.

Users also experienced higher energy levels and endurance, relief from chronic

discomfort and better sleep. Some even reported healthier looking skin, hair, and nails.

A healthy gut is the key to a reducing swelling and inflammation that can wreak havoc on the human body. Doctors say this is why AloeCure works on so many aspects of your health.

AloeCure's active ingredient is made from the healing compound found in Aloe vera. It is both safe and healthy. There are also no known side effects.

Scientists believe that it helps improve digestive and immune health by acting as a natural acid-buffer that improves the pH balance of your stomach.

Research has shown that this acid imbalance contributes to painful inflammation throughout your entire body and is why AloeCure seems to be so effective.

## EXCITING RESULTS FROM PATIENTS

To date over 5 million bottles of AloeCure have been sold, and the community seeking non-pharma therapy for their GI health continues to grow.

According to Dr. Leal, her patients are absolutely thrilled with their results and are often shocked by how fast it works.

"For the first time in years, they are free from concerns about their digestion and almost every other aspect of their health," says Dr. Leal, "and I recommend it to everyone who wants to improve GI health without resorting to drugs, surgery, or OTC medications."

"I was always in 'indigestion hell.' Doctors put me on all sorts of antacid remedies. Nothing worked. Dr. Leal recommended I try AloeCure. And something remarkable happened... Not only were all the issues I had with my stomach gone - completely gone - but I felt less joint pain and I was able to actually sleep through the night."

With so much positive feedback, it's easy to see why the community of believers is growing and sales for the new pill are soaring.

## THE SCIENCE BEHIND ALOECURE

AloeCure is a pill that's taken just once daily. The pill is small. Easy to swallow. There are no harmful side effects and it does not require a prescription.

The active ingredient is a rare Aloe Vera component known as acemannan.

Made from of 100% organic Aloe Vera, AloeCure uses a proprietary process that results in the highest quality, most bio-available levels of acemannan known to exist.

According to Dr. Leal and several of her colleagues, improving the pH balance of your stomach and restoring gut health is the key to revitalizing your entire body.

When your digestive system isn't healthy, it causes unwanted stress on your immune system, which results in inflammation in the rest of the body.

The recommended daily allowance of acemannan in AloeCure has been proven to support digestive health, and calm painful inflammation without side effects or drugs.

This would explain why so many users are experiencing impressive results so quickly.

## REVITALIZE YOUR ENTIRE BODY

With daily use, AloeCure helps users look and feel decades younger and defend against some of the painful inflammation that accompanies aging and can make life hard.

By buffering stomach acid and restoring gut health, AloeCure calms painful inflammation and will help improve digestion... soothe aching joints... reduce the appearance of wrinkles and help restore hair and nails ... manage cholesterol and oxidative stress... and improve sleep and brain function... without side effects or expense.

Readers can now reclaim their energy, vitality, and youth regardless of age or current level of health.

## One AloeCure Capsule Daily

- Helps End Digestion Nightmares
- Helps Calm Painful Inflammation
- Soothes Stiff & Aching Joints
- Reduces appearance of Wrinkles & Increases Elasticity
- Manages Cholesterol & Oxidative Stress
- Supports Healthy Immune System
- Improves Sleep & Brain Function

## HOW TO GET ALOECURE

This is the official nationwide release of the new AloeCure pill in the United States. And so, the company is offering our readers up to 3 FREE bottles with their order.

This special give-away is available for the next 48-hours only. All you have to do is call **TOLL-FREE 1-800-748-5760** and provide the operator with the Free Bottle Approval Code: AC100. The company will do the rest.

Important: Due to AloeCure's recent media exposure, phone lines are often busy. If you call and do not immediately get through, please be patient and call back. Those who miss the 48-hour deadline may lose out on this free bottle offer.
